

A woman with brown hair, wearing a bright red double-breasted coat over a white turtleneck sweater and dark blue trousers, is walking down a set of concrete stairs. She is smiling and looking towards the camera. She holds a white coffee cup in her right hand and a dark grey shoulder bag in her left. The background shows a modern building with glass windows and a metal railing.

Investor's Guide to Ukraine's Reconstruction by BDO in Ukraine

Investment Opportunities Map of Ukraine

[European Business Association](#) and [Global Business for Ukraine](#), together with Ukraine Invest, launched a [Map of investment and business opportunities in Ukraine](#).

An innovative interactive tool designed to assist potential investors in exploring the vast array of investment opportunities available across different regions of Ukraine. This powerful platform provides comprehensive information on each opportunity, enabling investors to make informed decisions based on their interests and preferences. Additionally, users have the option to express their interest in a particular project by submitting a request through the platform.

The investment map showcases detailed insights into every region of Ukraine, encompassing essential factors such as size, population, taxation regulations, educational institutions, abundant natural resources, and thriving industries.

Projects featured on the map are conveniently categorized based on either region or industry, allowing users to effortlessly navigate through their preferred sectors of interest. Each project description includes vital details such as the initiator, current status, precise location, investment opportunity, required investment amount, as well as specific goals and deadlines.

We are proud to announce that representatives from BDO in Ukraine actively participate in the Advisory Board responsible for meticulously selecting projects for placement on the map. This ensures that only the most promising and high-potential opportunities are showcased, providing investors with a reliable and credible resource.

As a comprehensive and user-friendly starting point for potential investors, this interactive map serves as a gateway to unlocking the vast investment potential in Ukraine.

Systems responsible for the recovery of Ukraine

The [DREAM Platform](#) is a comprehensive digital ecosystem designed to manage reconstruction projects through a unified platform. It integrates data from government sources, local communities, and key datasets, enabling effective collaboration and prioritization based on socio-economic impact. Currently in pilot mode and coordinated by the Ministry for Restoration and Agency for Restoration, it is set for full launch in spring 2024.

In May 2023, Ukraine's Ministry for Communities, Territories and Infrastructure Development, in partnership with the Ministry of Digital Transformation, launched the [e-recovery service](#). This service aids individuals whose homes, particularly apartments and houses, were damaged in the war. As of December 2023, 62,000 applications were submitted, predominantly from the Kharkiv, Kyiv, Mykolaiv, Kherson, and Donetsk regions, with 26,5 families receiving repair payments under this program.

Unified State Electronic System in the Construction Industry ([e-construction](#)) in Ukraine aims to organize the construction process, making it transparent and corruption-free through maximum public information disclosure. This system is designed to manage the entire lifecycle of a construction project, from obtaining urban planning conditions to commissioning. It centralizes and standardizes data from various sources, with most construction-related information and documentation expected to be created within the system by relevant entities.

Ukrainian companies and companies with significant Ukrainian exposure in which you can invest

Ukrainian exposure can be obtained not only with direct investments in Ukrainian assets but also through different Ukraine-exposed stocks and Eurobonds / military bonds.

Astarta Holding N.V (ASTH, WSE)

One of the largest agro-industrial holdings in Ukraine:

- ▶ 220 kha under management;
- ▶ sugar production: №1 producer in Ukraine with 250 - 500 thousand tons of sugar production per annum;
- ▶ cattle farming: №1 producer of industrialized milk in Ukraine with more than 100 thousand tons of milk production per annum and 25.5 thousand heads of cattle;
- ▶ soybean crushing: №2 in soybean processing in Ukraine with a crushing capacity of 230 thousand tons;
- ▶ bioenergy: designed daily capacity of 150 thousand m2 of biogas;

At the beginning of the full-scale invasion, Astarta's shares lost nearly 70% of their value compared to their early 2022 levels. As of May 2024, the stock price stands at 26 PLN, down from 40 PLN at the start of 2022. However, since the beginning of 2023, the stock has experienced a 20% increase.

The annual financial report for Astarta gave hints on how the company was doing in 2023. Revenue grown by (+21%) from EUR 510 to 619 mln, with the main contributor being agriculture which contributed 38% of consolidated revenue and grew by (+33%) y-o-y. EBITDA declined from EUR 154 million to 145 mln for of about -(-6%). The growth in terms of revenue could be explained through increased production volumes of crops and sugar while reduced EBITDA and growing cost of sales represent higher costs for exports as well as higher management fees.

Ovostar Union N.V. (OVO, WSE)

One of the largest egg producers in Europe:

- ▶ Near 7 million laying hens;
- ▶ Ovostar Union supplies 55 countries with fresh eggs; 40% of total sales are exports;
- ▶ Manufacturing eggs in various forms: liquid, in-shell, dry;
- ▶ Revenue in 2022 was USD 135.6 million.

From the beginning of 2022 to its lowest point, OVOSTAR's share price lost up to 45% of its original value. However, from the start of 2023 to May 2024, the share price increased by over 50%, reaching 67.80 PLN. This increase restored the stock price to its pre-invasion level.

MHP (MHPCq, LSE)

MHP is the largest integrated Ukrainian producer and exporter of poultry and crops, as well as other meat and sausage products and ready-to-eat meat products.

The company specializes in the production of poultry and, in particular, the cultivation of cereals:

- ▶ the leading producer of poultry in Europe with one of the strongest food brands in Ukraine, producing almost 670 thousand tons in 2022;
- ▶ One of the largest grain producers and oilseeds processors in Ukraine with significant growth potential (340 ths ha of arable land in 2022 under management);
- ▶ At the beginning of the full-scale invasion, the MHP shares lost about 50% of their value compared to the beginning of 2022 and as of February 2024 remain on the same level (slight growth of 10% since the beginning of 2023).

Export revenue increased by (+13%) in 2023 year. Revenue for the 2023 grown from USD 2,6 to 3 mln (+14%) compared to 2022, EBITDA increased by (+16%) - USD 384 to 445 mln.

MLK Foods Public Company Ltd / Milkiland (MLK, WSE)

MLK Foods is an international dairy producer with core operations in the CIS and EU:

- ▶ The Group's production assets are located in Ukraine. The total annual milk processing capacity exceeds 500 thousand tons;
- ▶ Controlled through the Group's subsidiary Milkiland Ukraine and includes milk processing 10 dairy processing plants, dairy farming, and an extensive milk collection system throughout Ukraine.

Stock prices have fallen 67% from the end of 2021 to the lowest point in 2022 year and additionally lost 35% from the beginning of the 2023 till May 2024, as the Company used to have financial issues before full-scale invasion and war only increased the pressure.

IMC SA (IMC, WSE)

IMC - is among top 10 Ukrainian agriculture companies operating 120 thousand hectares of arable land in key farming regions of Ukraine (Poltava, Chernihiv, Sumy).

Revenue increased from USD 61.8 to 98.7 mln (+60%) in 9M 2023 compared to the same period of 2022 year. EBITDA decreased from USD 36.8 to 13.8 mln (-62%), due to decrease of crop prices in 9M 2023.

In 2023 revenue increased from USD 114 to 139 mln (+22%) y-o-y. EBITDA decreased from USD 36 to 3mln (-91%), due to drop of oilseeds and grain prices as well as raise of sales cost.

EPAM Systems Inc (EPAM, NYSE)

EPAM is IT company named a Forbes global 2000 company in 2011, works in over than 50 countries:

- ▶ 55 600 employees worldwide, largest number of EPAM employees is in Ukraine - 11 300;
- ▶ EPAM is part of the S&P 500 index since 2021.

In 2022, EPAM's revenue reached USD 4,824 million, marking a 28% increase from USD 3,758 million in 2021. Net income also saw growth, with a rise of over 13% in 2022 to USD 481.7 million, up from USD 419.4 million in the previous year.

Military Bonds

Ukraine has issued a series of war bonds to raise financing and support the army. These bonds can be purchased by Ukrainian legal entities and individuals, as well as foreign investors who want to support Ukraine. The bonds can be nominated and purchased in UAH, USD, or EUR. The most recent auction held on January 30, and issued bonds equivalent to UAH 1.6 BLN.

The war bonds offer up to an 18.5% yield, which surpasses the US Treasury bill, which offers max yield of 5.35%.

Ukrainian Eurobond

Ukrainian sovereign Eurobonds have been under significant pressure since the onset of the war. Approximately 50% of the Ukrainian budget (specifically its social component, excluding the military) is supported by international donors. Given this, restructuring of at least the upcoming issues seems plausible. As of February 2024, the YTM for the upcoming Ukraine 24 was a staggering 396%. Longer-duration bonds exhibit lower YTM but are still trading between 23-31 cents per USD/EUR.

There's also a unique instrument - the GDP-linked Warrants. In 2015, Ukraine issued GDP warrants worth \$3.6 billion to make its restructuring of \$15 billion of debt more appealing. This restructuring required investors to write off 20% of the original value of their assets. However, these warrants provide a potential benefit linked to GDP growth between 2021 and 2040. If the real, inflation-adjusted GDP growth surpasses 3%, Ukraine commits to paying warrant holders an amount equivalent to 15% of the economic output exceeding this threshold. This percentage escalates to 40% if the growth surpasses 4%.

Eurobonds from the corporate and banking sectors have demonstrated better resilience compared to the sovereign ones, attributed mainly to a healthier financial situation. This is particularly true for the banking sector, where liquidity has reached an all-time high, thanks to successful reforms implemented between 2015 and 2016. Some entities, like MHP, plan to repurchase a portion of their own bonds, viewing it as a strategic investment given the prevailing circumstances.

Canada Ukraine Sovereignty Bond

If you want to support Ukraine with your investment, then Ukraine Sovereignty Bond can be a stable option. These are bonds, issued by Canada for five years for CAD 500 million. The bonds are issued in Canadian dollars and have an interest rate of 3.245%. According to the terms, the Canadian government will transfer the funds collected from the sale of bonds to Ukraine through the IMF Administered Account for Ukraine.

Military Tech

Investment in Ukrainian military technology (MilTech) startups has been on the rise since the start of the Russian invasion in 2022. Ukrainian government is actively supporting the MilTech industry through schemes such as Brave1 MilTech start-up accelerator which for this year it has a \$40m fund for.

More than forty five MilTech companies operate publicly within Ukraine, but hundreds more are operating anonymously and in stealth mode with their focus primarily on air, sea and ground drones as well AI systems to enhance drone accuracy and electronic warfare (EW) equipment for defense against enemy drones and their EW.

Funding MilTech startups does not only support Ukraine's defense efforts but also makes an attractive business case for investors who seek fast growing organizations that can impact globally as active phase of war provides unique opportunity to test all the new systems on battlefield skipping a number of intermediate stages to final practical result.

Moreover, MilTech includes not only offensive technologies but also defense in all means starting from early detection to passive and active defense systems

Some of the major Ukrainian MilTech firms include:

- ▶ **TELEACTICA** - Established in 2023 TELEACTICA designs long-range radio communication systems (EW-resistant telemetric and video communication modules) and offers R&D support services to local businesses.
- ▶ **Promin Aerospace** - Founded by Misha Rudominskyi, Promin Aerospace is working on innovative aerospace technologies: the company created a rocket that can deploy payloads into orbit in a revolutionary new way by using the proprietary method of gasification and subsequent burn of the solid fuel tank material in the rocket engine
- ▶ **Himera** - Co-founded by Misha Rudominskyi and Oleksii Oliynyk, Himera focuses on developing cutting-edge military technologies focusing on secure and EW-resistant communication system (FHSS technology) which can be used as a part of operational awareness system during combat operations
- ▶ **UKRSPEC Systems** - Founded in 2014, at the beginning of the Russian intervention. Producing one of the most famous Ukrainian fixed-wing and rotor drones. Famous for their SHARK drone observing systems which include a full system, complicated with UAV software and camera gimbal
- ▶ **GRISELDA** - a relatively small company, with high ambitions for the development unique observing system. Their main aim is to process large streams of data and provide analysis through Neural networks and other modules. Their famous DeepState map is created in collaboration with GRISELDA.
- ▶ **Piranha-Tech** - a company founded in 2014m specializes on manufacturing of EW systems. Their solutions create protective jamming domes against satellite navigation and drones. Piranha-Tech are famous for compact design and high reliability of their products.
- ▶ **SkyLab UA** - Established in 2023 as company that specialises in development and production of robotic systems and UAVs for military. Their most famous product is the Sirko-S1 UGV - ground drone with advanced camera and laser orienting system, and with the feature of autonomous following of person.

Accessing Ukraine's Domestic Government Bonds for Foreign Investors

Foreign investors have the opportunity to purchase domestic government bonds (DGB) in Ukraine. From April 1, 2023, the National Bank of Ukraine [allowed](#) foreign investors to repatriate abroad the interest received from DGB, [provided that](#) the investor has held these DGB for at least the last 90 consecutive calendar days before receiving the interest. This decision is aimed at stimulating investment and developing the government bond market.

Currently, the NBU is the depository for DGB, meaning it is the institution that maintains centralized accounting of DGB in a non-documentary form. More information about the domestic government bond market can be found on the National Bank of Ukraine's [website](#).

To purchase DGB, foreign investors need to open a securities account through investment companies or banks, sign a bond purchase agreement, and deposit the corresponding amount into the account. Banks and investment companies buy DGB from the Ministry of Finance [at auctions](#) and then set their price and other conditions when selling to clients. DGB can also be purchased through financial companies that have licenses for securities operations

Ukraine's Global Rankings and Indices

To make it easier to decide about investing in Ukraine's economy, we offer you to familiarize with some ratings that partially represent the country's institutional and investment environment.

Index of Economic Freedom

The Heritage Foundation's annual [Index of Economic Freedom](#) measure economic freedom based on 12 quantitative and qualitative factors, grouped into four broad categories, or pillars, of economic freedom:

- ▶ Rule of Law (property rights, government integrity, judicial effectiveness);
- ▶ Government Size (government spending, tax burden, fiscal health);
- ▶ Regulatory Efficiency (business freedom, labor freedom, monetary freedom); and
- ▶ Open Markets (trade freedom, investment freedom, financial freedom).

Each of the twelve economic freedoms within these categories is graded on a scale of 0 to 100. A country's overall score is derived by averaging these twelve economic freedoms.

According to the report for 2022 (in 2023-2024, the index was not calculated for Ukraine), Ukraine has an indicator of 54.1 and occupies the position of a country with a largely unfree economy. Ukraine's economy is considered "free" or "mostly free" in terms of tax burden, trade freedom, fiscal health, and monetary freedom.

[Index of Economic Freedom in Ukraine](#)

Corruption Perceptions Index

Ukraine scored 36 points out of 100 in the 2023 [Corruption Perceptions Index \(CPI\)](#). Ukraine ranks 104th out of 180 countries. Ukraine's growth by 3 points is one of the best results over the past year in the world. Ukraine is also one of the 17 countries in this year's CPI that have shown their best performance ever.

Since the Revolution of Dignity and the beginning of a major reform, Ukraine has scored a total of 11 points over the past 10 years. The active work of anti-corruption and other public authorities resulted in a growth in the 2023 Corruption Perceptions Index even during the full-scale.

The Global Innovation Index

The Global Innovation Index (GII) takes the pulse of innovation against a background of an economic and geopolitical environment fraught with uncertainty. It reveals the most innovative economies in the world, ranking the innovation performance of around 132 economies while highlighting innovation strengths and weaknesses.

Envisioned to capture as complete a picture of innovation as possible, the Index comprises around 80 indicators, including measures on the political environment, education, infrastructure and knowledge creation of each economy.

In 2023, Ukraine had the best positions in the indicators “creative outputs” - 37th place in the ranking, “knowledge and technology outputs” - 45th place in the ranking, “human capital and research” - 47th place.

	2015	2016	2017	2018	2019	2020	2021	2022	2023

The Global Innovation Index (GII)

Index of digital transformation of Ukrainian regions

The Index of Digital Transformation of Ukrainian Regions is one of the tools for measuring the processes of informatization and digitalization in 24 regions, allows to study the capacity of authorities to make digital decisions, and determines the level of digital culture among citizens.

The index contains 8 main blocks: Institutional Capacity; Internet Development; ASC Development; Implementation of the Paperless Regime; Digital Education; Regional Business Card; Penetration of Basic Electronic Services; Sectoral Digital Transformation.

According to the results of the **2023** study, the average score of the Index is 0.632 points out of a possible 1. The highest scores are observed in such sub-indices as Paperless Regime [0.697], Institutional Capacity [0.678], and Penetration of Basic eServices [0.666]. The lowest score was achieved in the Sectoral Digital Transformation sub-index [0.560], indicating the need to strengthen work in the areas of cybersecurity, healthcare, and civil protection.

Martial Law

[Martial law](#) is a specific legal regime introduced in Ukraine or in some of its regions in the event of armed aggression or threat of attack, threat to the state independence of Ukraine, its territorial integrity and provides for the provision of the relevant state authorities, military command, military administrations and local self-government bodies with the powers necessary to avert the threat, repel armed aggression and ensure national security, eliminate the threat to state independence. Due to Russia's military aggression since February 24, 2022, President Volodymyr Zelenskyy signed Decree [No. 64/2022 "On the Introduction of Martial Law in Ukraine"](#), which is regularly updated at the legislative level (every 90 days).

Impact of martial law on doing business in Ukraine:

- ▶ The National Bank of Ukraine may impose restrictions on foreign exchange transactions making international transactions more difficult. As the war is ongoing, the NBU is adapting its regulations and taking steps to restore Ukraine's economy. For more information on the current conditions for regulating foreign exchange transactions, please follow the updates of the National Bank of Ukraine.
- ▶ During martial law, the authorities may compulsorily seize the resources and property of enterprises for defense or public security purposes. In this case, a preliminary full compensation of the property value is possible.
- ▶ New labor obligations are introduced that may affect normal working conditions, including possible mobilization of employees. [On Amendments to Certain Legislative Acts of Ukraine on Optimization of Labor Relations](#).
- ▶ Businesses may be subject to additional inspections and control measures by military and government authorities.
- ▶ During hostilities, there is a risk of damage or destruction of company property, which can cause significant financial losses. Remember, the company must be equipped with a bomb shelter to ensure the safety of its employees.
- ▶ The martial law potentially complicates logistics and the supply of goods due to checks at the checkpoints and customs controls. Despite these difficulties, businesses continue to transport their goods across Ukraine.
- ▶ A declaration will be enough to start your own business. During the martial law, Ukraine [has simplified the issuance of permits and licenses](#) on a declarative basis, which allows entrepreneurs to launch their businesses more quickly.

Impact of martial law on corporate taxation:

- ▶ The requirements for the transportation of fuel were simplified, certain goods for military units were exempted from excise duty, and the accounting of excise duty on electricity and fuel storage was changed.
- ▶ Imports of defense goods are exempt from customs duties, and customs regulations for certain goods have been simplified.
- ▶ Businesses are exempt from fines for late payment of taxes due to hostilities until 6 months after the end of martial law.
- ▶ Taxpayers, who have lost documents due to hostilities, can submit a notification to retain expenses and tax credit without audits. Declaration data is not increased.

Key aspects of martial law for civilians:

- ▶ Under martial law, special measures are provided for the evacuation of civilians from areas of danger, the arrangement of shelters, healthcare and the provision of vital services.
- ▶ During martial law, there may be restrictions and limitations for citizens, foreigners and stateless persons to move freely, as well as to drive vehicles. A curfew is introduced.
- ▶ According to the law, during martial law, the authorities and military command have the right to check documents, inspect belongings, luggage, cargo, vehicles, and private property.
- ▶ For the duration of martial law, persons liable for military service are prohibited from traveling abroad, with certain exceptions.

Mobilization in Ukraine

Mobilization includes a set of measures to ensure that the national economy, state bodies, local governments, enterprises, institutions and organizations are ready to operate in wartime conditions. It covers the transition of their activities to the war regime, as well as the training of the Armed Forces of Ukraine, other military units and civil defense forces for wartime operations.

Mobilization in Ukraine is carried out in accordance with the Constitution of Ukraine, the Law [“On Mobilization Training and Mobilization”](#) and other legal acts. On May 18, 2024, the new [Law No. 3633-IX “On Amendments to Certain Legislative Acts of Ukraine on Certain Issues of Military Service, Mobilization and Military Registration”](#) came into force, which introduced significant changes to the mobilization process, including:

- ▶ Reduction of the conscription age from 27 to 25 years
- ▶ Creation of a unified electronic register of persons liable for military service
- ▶ Permission to demobilize conscripts
- ▶ Cancellation of the status of “restrictedly fit for military service”
- ▶ Increasing fines for persons evading service
- ▶ Women can be registered for military service voluntarily, except for those with medical or pharmaceutical education. They can be mobilized only upon their consent.

Certain categories of citizens are granted a deferment from conscription for military service during mobilization in Ukraine in accordance with the law. In particular, deferment is granted to:

- ▶ Persons with three or more children under the age of 18.
- ▶ Persons raising a minor child on their own.
- ▶ Persons caring for family members, who need constant assistance.
- ▶ Booked employees of critical industries or organizations.
- ▶ Students, who are studying full-time or dual enrollment and meet the conditions for consistent improvement of their education.
- ▶ Persons with disabilities of all groups, if there is a confirmation from the military medical commission (with an obligation to undergo a second medical examination in 6-12 months).

The deferment shall be granted on the basis of relevant documents confirming the existence of these circumstances. The decision to grant the deferment is made by the TRC. For more information on the procedure for deferment, see [Law of Ukraine “On Mobilization Activities and Mobilization”](#).

Deferment period

In the context of mobilization, persons subject to call-up may be granted a deferment of mobilization for the duration of the circumstances that constitute grounds for granting the deferment or for the duration of the booking. The deferment is granted by territorial recruitment centers (TRC) and commissions on the basis of submitted applications and justifications. **Resolution of the Cabinet of Ministers of Ukraine of May 16, 2024 No. 560 “On Approval of the Procedure for Conscription of Citizens for Military Service during Mobilization, for a Special Period”**.

The grounds for extending the deferment are checked, in particular, with the help of the Unified State Register of Conscripts, Persons Liable for Military Service and Reservists.

Booking of employees

In the context of mobilization, businesses can book key employees to ensure the continuity of important production and functional processes. This applies to employees whose activities are critical to the functioning of enterprises, organizations or institutions. The procedure for booking employees, who are critical to the economy and defense, is determined by [the Law of Ukraine “On Mobilization Activities and Mobilization”](#).

Booking procedure:

- ▶ Companies submit to the relevant authorities applications for booking of their key employees with a justification for the need for reservation, as well as a list of employees to be booked.
- ▶ Applications are reviewed by the Ministry of Economy of Ukraine and the General Staff of the Armed Forces of Ukraine. Upon approval, a decision is made to grant a deferment.
- ▶ Since July 2024, Ukraine has introduced electronic [booking through the Diia portal](#). This significantly speeds up the process and reduces the workload of ministry employees. The booking procedure takes about an hour, and decisions are made automatically based on checks in the registers.

Sanctions and Restrictions for Non-Resident Companies in Ukraine

Ukraine has the right to impose [sanctions to protect its national interests, security, sovereignty and territorial integrity](#). Sanctions may be imposed by Ukraine against a foreign state, a foreign legal entity, a legal entity controlled by a foreign legal entity or a non-resident individual, foreigners, stateless persons and entities engaged in terrorist activities.

Influence of sanctions on non-residents:

- ▶ The type of restrictions, established by the relevant [sanction](#) and imposed by the competent authority, may include, in particular, blocking of assets, restriction on trading, suspension of economic and financial obligations, prohibition of participation in privatization, public procurement, etc.
- ▶ Sanctioned individuals may not purchase land in Ukraine, which may limit their ability to develop their business.
- ▶ Sanctioned non-residents may not participate in the privatization of state property, which may affect their investment plans.
- ▶ Sanctions may include [restrictions](#) on financial transactions, making it difficult to conduct business and make payments.

In particular, [on February 22, 2023](#), the President of Ukraine implemented the decision of the NSDC on sectoral sanctions against all financial institutions of the Russian Federation.

The sanctions cover hundreds of Russian banks and tens of thousands of financial institutions, including banks, non-bank credit organizations, operators of payment systems, insurance companies and other financial institutions registered in Russia. They provide for the termination of relations with Russian financial institutions, suspension of financial obligations to them and a ban on servicing payment instruments issued by these institutions.

The [State Register of Sanctions](#) provides free public access to up-to-date information on legal entities and individuals subjected to sanctions. This resource can be used to verify sanctioned entities. Currently, the Ukrainian Sanctions Register contains more than 10 thousand sanctioned individuals and more than 7 thousand sanctioned legal entities.

Key aspects and restrictions of doing business by non-residents in Ukraine:

- ▶ Ukrainian legislation provides for sanctions against non-resident companies operating in the **aggressor country** or **owned by the citizens of countries against which Ukraine has imposed economic sanctions**. Such actions may include the freezing of assets, restrictions on banking transactions and a ban on entering into new contracts.
- ▶ Non-resident companies must comply with the legal requirements for transparency of ownership structure and **disclosure of ultimate beneficial owners**. Companies with ultimate beneficial owners from countries subject to sanctions may encounter difficulties in maintaining or registering their activities in Ukraine.
- ▶ There are **restrictions on activities in certain industries**, including the restrictions on non-resident companies from conducting business in certain sectors of the economy considered to be of strategic importance to the state.
- ▶ Non-resident companies may be subject to additional due diligence if their activities could potentially threaten **Ukraine's national security**.

Financial system of Ukraine during the war, sanction restrictions

[On March 8, 2022, the National Bank of Ukraine once again updated its regulatory framework regarding the operation of the financial system during wartime by adopting Resolution No. 44 "On Amendments to Resolution No. 18 of the Board of the National Bank of Ukraine dated February 24, 2022"](#). The new resolution imposes additional restrictions on entities associated with russia and belarus, which are recognized under Ukrainian law as the states engaged in armed aggression against Ukraine.

Resolution No. 44 provides for restrictions on:

- ▶ residents of russia/belarus
- ▶ legal entities (except for banks), whose ultimate beneficial owners are residents of russia/Belarus.

Ukrainian financial institutions are prohibited from conducting expenditure transactions on the accounts of the above-mentioned entities, except for the expenses to support the Armed Forces of Ukraine, payments to government agencies, social benefits, payroll, utility bills, taxes, levies and other mandatory payments.

In addition, Ukrainian financial institutions are prohibited (with certain exceptions) from conducting foreign exchange transactions:

- ▶ using russian or belarusian rubles
- ▶ with the participation of legal entities or individuals located (registered/permanently residing) in russia or belarus
- ▶ to fulfill obligations to legal entities or individuals located (registered/permanently residing) in russia or belarus.

The purpose of these restrictions is to prevent the withdrawal of funds by the beneficiaries of such companies and their use in russia. In practice, this can lead to the blocking of funds of such companies.

Political and war risks mitigation possibilities

Political risks are associated with government actions which deny or restrict the right of an investor/owner i) to use or benefit from his/her assets; or ii) which reduce the value of the firm. Political risks include war, revolutions, government seizure of property and actions to restrict the movement of profits or other revenues from within a country.

By purchasing political risk insurance (PRI), investors can successfully strengthen their position in the host state, allocating the burden of political risk to third parties (insurance agencies). PRI is provided by **international organizations**, such as the Multilateral Investment Guarantee Agency (MIGA) and **state-sponsored insurance agencies**, known as export credit agencies (ECAs) or public insurance agencies.

Political risks covered PRI providers cover very similar sets of political risks:

- 1) Currency inconvertibility and transfer restrictions.
- 2) Confiscation, expropriation, nationalization.
- 3) Political violence/war.
- 4) Default on obligations such as loans, arbitral claims, and contracts.

Most credit agencies have frozen their limits for Ukraine because of the lack of instruments in place.

War risk - risks associated with war, such as physical damage to goods and assets, hostile occupation, and contract obligation breaches for war-related reasons, including bank loans, goods, or services supply. It should cover not only total losses of property but also damages of a moderate scale.

1. MIGA - Multilateral Investment Guarantee Agency

<https://www.miga.org/products>

MIGA is a member of the World Bank Group. MIGA's mandate is to promote cross-border investment in developing countries by providing guarantees (political risk insurance and credit enhancement) to investors and lenders.

MIGA provides political risk insurance guarantees and credit enhancement to private sector investors and lenders. MIGA's guarantees protect investments against non-commercial risks and can help investors obtain access financing on improved terms and conditions.

MIGA's War and Civil Disturbance coverage provides protection against loss from, damage to, or the destruction or disappearance of, tangible assets or total business interruption (the total inability to conduct operations essential to a project's overall financial viability) caused by politically motivated acts of war or civil disturbance in the country, including revolution, insurrection, coups d'état, sabotage, and terrorism.

For tangible asset losses, MIGA pays the investor's share of the lesser of the replacement cost and the cost of repair of the damaged or lost assets, or the book value of such assets if they are neither being replaced nor repaired. For total business interruption that results from a covered war and civil disturbance event, compensation is based, in the case of equity investments, on the net book value of the insured investment or, in the case of loans, the insured portion of the principal and interest payment in default. This coverage encompasses not only violence in the host country directed against a host country government, but also against foreign governments or foreign investments, including the investor's government or nationality.

Temporary business interruption may also be included upon a request from the investor and would cover a temporary but complete cessation of operations due to loss of assets or unreasonably hazardous conditions in the host country, which result in a temporary abandonment or denial of use. For short-term business interruption, MIGA pays unavoidable continuing expenses and extraordinary expenses associated with the restart of operations and lost business income or, in the case of loans, missed payments.

MIGA covers capital and debt insurance up to 90%.

Cost of insurance for Ukraine is believed to be up to 1%

MIGA's Product Lines available in Ukraine

2. List of International Export Credit Agencies and other organisations that announced support to Ukraine

No	Country	Agencies	Web	Conditions
1	Austria	OeKB	https://www.oekb.at/en/oekb-group/news-und-wissen/news/2023/ukraine-weitere-oeffnung-deckung.html	Covering and financing exports: Supplier credit, Sale of receivables, Buyer credit Cover of letter of credit confirmations, Leasing Concessional financing (soft loan), Production financing, Down-payment financing, Assumption of risk for bank guarantees, Guarantee for use of machinery Stock in commission, Private credit insurance With OeKB, you are guaranteed to get the right solution when covering the risk of your exports, whether they are goods or services. Even high-level commercial and political risks that the private credit insurance market doesn't cover can be covered. With your bank as a partner, we can also finance covered transactions at particularly attractive rates. This means you get your money quickly as an exporter, and your customer can pay for the investment over a longer period.
2	Belgium	CREDENDO	https://credendo.com/en/knowledge-hub/credendo-announces-it-will-resume-cover-ukraine	Buyer Credit Insurance The Belgian government asked Credendo to resume coverage of export transactions on Ukraine, acting for the account of the Belgian State. An amount of EUR 100 million will be made available for this purpose, of which EUR 75 million for short-term transactions (risk duration of maximum one year) and EUR 25 million for medium- to long-term transactions (risk duration above one year). That ceiling could later be raised based on positive experience. Insurance will be made available for transactions with sufficient Belgian interest and for a maximum of EUR 15 million per transaction. Moreover, where necessary, guarantees from Ukrainian banks or authorities will be required.
3	Canada	Export Development Corporation	https://www.edc.ca/en/article/faqs-russia-ukraine-conflict.html	As international risk experts, EDC helps Canadian companies to navigate, manage and take on risk to support their growth beyond Canada's borders. EDC's solutions include: <ul style="list-style-type: none"> • Capital - access to working capital and financing • Risk mitigation - insurance that lowers the risk of doing business abroad • Trade knowledge - expertise to help companies make informed decisions • Global connections - relationships that connect Canadian and international companies and help both parties grow
4	Czech Republic	Export Guarantee and Insurance Corporation	EGAP.cz	On April 17 th 2024, the Czech government approved a new policy by the Ukraine EGAP Fund, allowing for the insurance of Czech companies' exports to Ukraine up to EUR 5 million without the need to confirm previous relationships between the parties. At a meeting on April 19 th with EGAP's management, the possibility of further simplification of conditions was discussed, as Ukraine has so far fulfilled all obligations and no insurance payouts have been necessary. Additionally, the National Development Bank of the Czech Republic will administer part of the EU funds for Ukraine, potentially providing guarantees for international orders.

No	Country	Agencies	Web	Conditions
5	Denmark	Export and Investment Fund of Denmark	https://www.eifo.dk/en/knowledge/news/new-reinsurance-scheme-reduces-the-risk-of-trading-with-ukraine/	An insurance solution from EIFO makes sure that 1)you will be compensated for your loss in case your customer suddenly goes bankrupt or cancels the order 2)you can accept new orders in spite of risk of war and political unrest in a country 3)you can focus on new business transactions rather than worrying about the risks related to previous transactions
6	Finland	Finnvera Oyj, Finnish Export Credit Ltd (FEC)	https://www.finnvera.fi/eng/finnvera/newsroom/news/finnveras-export-credit-guarantees-help-promote-ukraines-reconstruction-efforts	Finnvera with up to EUR 50 million in compensation for credit losses sustained in connection with export credit guarantees granted for the promotion of exports and investments to Ukraine. Finnvera will resume granting export credit guarantees from 1 January 2024. This arrangement applies particularly to financing options for short-term trade (such as documentary credit guarantees and credit insurance), which are particularly important for securing SME exports. The provision of export credit guarantees for medium and long-term trade can also be gradually increased.
7	France	Bpifrance	https://www.bpifrance.fr/	The French state-owned insurance company Bpifrance Assurance Export will insure French companies that are ready to invest in Ukraine and take an active part in the country's reconstruction without waiting for the war to end. Any company operating under French law and making a long-term investment abroad in a new or existing company, or any credit institution providing a bank loan to a foreign subsidiary, is eligible for this investment insurance. It protects investors or lending institutions against the risks of property damage or non-payment, non-transfer, expropriation or political violence. The insurance covers up to 95% of the loss of the investor's assets or receivables.
8	Germany	Investment Guarantees (agent PWC)	https://www.investitions-garantien.de/news/ukraine-krieg/bundesregierung-verbessert-die-garantiekonditionen	A Supplier Credit Guarantee offers protection against payment default, in particular if: 1)a foreign buyer becomes insolvent 2)the foreign buyer fails to make payment within 6 months (protracted default) 3)adverse measures are taken by foreign governments or warlike events arise 4)local currency amounts are not converted or transferred 5)contract performance becomes impossible due to political circumstances
9	Italy	SACE	https://www.sace.it/media/comunicati-e-news/dettaglio-comunicato/simest-gruppo-cdp)-al-via-le-misure-per-pmi-e-midcap-colpite-dalla-crisi-ucraina	INVESTMENT PROTECTION. With SACE investors can safely invest abroad, getting insurance against the risk of loss of invested capital, interests and profits due to political events. SACE covers business from expropriation, nationalization, war and civil unrest, currency restrictions and breach of contract. In addition, if investors are unable to continue operations abroad due to war or civil unrest, with SACE they can recover loss of profit. Italian companies and their subsidiaries abroad planning to make foreign direct investments can get benefits: Safely invest abroad. Insurance of sums due to investors by way of future dividends, revenues from the sale of the investment and interests on shareholder's loans.

German Export Credit Guarantees - Simplified procedures for Ukraine

German Export Credit Guarantees is a new opportunity for Ukrainian entrepreneurs to obtain the necessary equipment, and for German manufacturers to sell their goods.

Hermes covers an export credit guarantee (ECG) by the German Federal Government. These guarantees are an important part of German foreign trade policy and protect German exporters and export finance banks from political and commercial risks. Euler Hermes Aktiengesellschaft has been commissioned by the Federal Government to manage the federal financing instruments Export Credit Guarantee and Imposed Loan Guarantee.

Euler Hermes Aktiengesellschaft offers short-term loans for the following goods:

- ▶ 6 months (raw materials, semi-finished products, components, consumer goods, spare parts)
- ▶ 12 months (high-value components, fertilizers and plant protection products, long-lasting goods)

German companies are ready to deliver goods to Ukraine worth more than 24 million euros in July and June. The special conditions offered by the German Government can predict that **100 million euros** will be invested in business in Ukraine this year.

A representative of Geringhoff, an agricultural machinery manufacturer specialising in combine harvesters, noted that the Ukrainian market is very important to them. The agricultural production market is seasonal, making timely payments crucial. If they don't have Hermes cover, they will require advance payment. The company hopes that Hermes cover will allow them to increase the number of customers in Ukraine.

With this coverage, the client will pay for the goods to Geringhoff, and in the case of its bankruptcy, after 12 months, Hermes cover will compensate the Ukrainian company's debt to the manufacturer. The cost of Hermes cover for Ukrainian companies depends on many factors. It can be as low as 0.5% of turnover, and the German importer includes this amount in the product's price.

Regarding the minimum initial payment, there are no specific requirements for short-term contracts. It all depends on the exporters, but they must have a presence in Germany. Shipments from China are not covered by Hermes. Additionally, Hermes cover is not risk insurance in favor of Ukrainian companies, and military risks are not compensated. That is, if a Russian missile destroys equipment or something else, these costs cannot be covered. There are other programmes available, and their terms of cooperation with them can be found on their website. There is currently no maximum number of contracts for Hermes cover, but the details are carefully reviewed before signing contracts for cover.

For Ukrainian companies, the first step should be communication with German partners, and then communication with the office that provides cover.

The Senior Underwriting Manager of the Export Credit Agency (ECA) in Germany emphasized that coverage terms can range from 360 days to 15 years depending on the project size and the shelf life of the goods being supplied, and for some projects, such as renewable energy, even longer.

Benefits provided by project financing from the German ECA:

- ▶ Low financial costs
- ▶ Longer loan terms
- ▶ Flexibility (based on 70 years of experience and an excellent reputation)

The maximum limit for project value is **250 million euros**. If the project amount exceeds **10 million euros**, a more detailed analysis of the project is conducted, all risks are clarified, and an audit is performed. If necessary, the issue of collateral or state guarantees is raised. Cover can also be combined with leasing of German equipment.

International Chambers of Commerce / Business Associations

International Chambers of Commerce & Business Associations play a pivotal role in facilitating foreign investment in Ukraine. These organizations serve as a bridge between investors and the local business landscape, offering invaluable insights, networking opportunities, and tailored support services. Whether you are looking to understand market dynamics, regulatory frameworks, or seek potential business partners, these chambers provide a comprehensive suite of resources to ensure a smooth and successful entry into the Ukrainian market.

Contact your local Chamber or Business Association for more information.

6,97 billion EURO - Investment fund

Thanks to the risk-sharing mechanisms, EU national development banks can apply for instruments under the second pillar to mobilise investments. European Commission, with national development banks, is now investigating the possible instruments and their terms for supporting Ukraine's rebuilding efforts via long-term investment loans secured with Ukraine Facility Guarantee (the terms of the investment are still to be announced by the EC). In this regard, two potential financial instruments may be available:

I. Direct loans for investment projects for both European and Ukrainian private partners with the following characteristics:

1. Equity: minimum 30% of the total project costs (max 70% of debt financing);
2. Size of the project: minimum EUR 5 mln, maximum not determined yet;
3. Currency: EUR (the loan has to be denominated and repaid in EUR);
4. Tenor: to be determined, possibly financing up to 10+ years.

II. Intermediated financing through local Ukrainian banks

1. Limits risks for creation and support of local market;
2. Easily implementable in the prolonged war scenario;
3. Indirectly, it can support European businesses with tailor-made solutions for specific sectors of the Ukrainian economy.

In Nordic countries, potential Institutions that will receive a guarantee under the second Pillar can be the Nordic Investment Bank, Nordic Investment Fund, Norfund, Swedfund, IFU and others...

Pillar 1 Support to Ukraine Plan

- ▶ **EU support to Ukraine's Plan** through grants and loans to the State budget, to:
 - address the **urgent financial needs of the State** to maintain macro-financial stability
 - promote investments that foster **recovery, reconstruction and modernisation** (with tracking for green, local)
 - encourage reforms needed for **EU accession**

Pillar 2 Ukraine Investment Framework

- ▶ **De-risking mechanism available to investors** through International Financial Institutions to scale up investments and crowd in new investors
- ▶ **Support to the Ukrainian private sector** (at least 15% to SMEs)
- ▶ **Technical assistance to support preparation and implementation of investments**
- ▶ **25% time-bound exclusivity period for EIB**

Pillar 3 Assistance programmes

- ▶ **Technical assistance to the Government** (EU acquis, structural reforms)
- ▶ **Capacity building of the authorities** at national, regional and local level
- ▶ **Support to civil society**
- ▶ Coverage of **interest rate subsidies** for loans, including legacy MFA and provisioning

Taxation in Ukraine

1. THE TAX SYSTEM

In Ukraine, taxes and statutory charges are levied in accordance with the Tax Code of Ukraine (effective from 2011). The major taxes and compulsory payments are:

- ▶ Corporate income tax (CIT)
- ▶ Value added tax (VAT)
- ▶ Personal income tax (PIT)
- ▶ Unified social contribution (USC)
- ▶ Temporary "military charge"
- ▶ Excise tax
- ▶ Property tax
- ▶ Duty
- ▶ Land rental fee

All taxpayers are required to register with the State Tax Agency (STA) and to obtain a tax identification (ID) number. Registration is undertaken through the local tax office where the business is located. Without a tax ID number it is not possible to open a bank account in Ukraine.

2. TAXES ON BUSINESS

2.1. Corporate income tax

2.1.1. Tax rates

The basic corporate income tax rate is 18%. In 2024, the rate of 50% will be returned to banks, and from January 1, 2025, the rate of 25% will be set for financial service providers (except insurance companies). A simplified tax regime at a low tax rate is available for small businesses (3% or 5% of the sales) and agricultural businesses (the tax is based on the land area used). Special tax treatment also applies to insurance companies and lotteries.

In Ukraine, CIT administration is centralised and no additional corporate income taxes are imposed at regional or local levels. For each reporting period, CIT is calculated on a self-assessed basis.

CIT returns must be filed on a quarterly basis and in some cases - on calendar year basis (for new legal entities, and for entities with a prior year's annual income less than UAH 40 million that (\approx EUR 0.92 million). It is allowed to credit the foreign income tax (up to the amount of the Ukrainian income tax on the same income)

2.1.2. Taxable base

CIT is levied on tax residents of the Ukraine on their gross worldwide income and it is levied on non-residents on their Ukraine-sourced income. A non-resident entity with place of effective management in Ukraine qualifies as a tax resident taxed on Ukraine-sourced income only.

The taxable base for CIT is calculated as Ukraine and foreign-sourced income, which is determined by adjusting (increasing or decreasing) the financial result before tax (profit or loss), as defined in the financial statements in accordance with IFRS or the national accounting regulations (standards) (an election available for most businesses except banks, insurance companies etc.), for tax differences according to the Tax Code. Income includes any income from the sale of goods/works/services, capital gains, foreign exchange gains, free-of-charge transfers, and other taxable receipts in cash, in kind, or in the form of intangibles accrued within the reporting period.

Taxpayers with annual income below UAH 40 million (\approx EUR 0.92 million) may opt to not apply the tax differences.

Ukraine uses an accrual method for tax accounting. Income is realised in the tax period when the transfer of ownership title to goods/services/works occurs, while deductible expenses (forming the cost of production of sales) are recognised on the date when the relevant goods/services/works were supplied.

Dividends received from residents of Ukraine and non-residents under the recipient's control shall not be included into taxable incomes.

2.1.3. Tax loss use

Tax losses can generally be carried forward indefinitely, except for so-called big taxpayers - that are allowed to use in a tax year only 50% of unused tax loss (the remaining 50% can be forward to the next year). It is not allowed to carry back a tax loss.

A taxpayer qualifies as a big one if its sales proceeds exceed EUR 50 mln or the annual amount of taxes exceed EUR 1.5 mln, average staffcount - above 250).

2.1.4. Allowable deductions

Most business-related expenses are deductible for CIT purposes. However, the deductibility of certain expenses is specifically limited (for example, interest payable to related non-residents; royalties paid to non-residents).

2.1.5. Transfer Pricing

The Ukrainian transfer pricing rules correspond to OECD transfer pricing guidelines. The amount of taxable profit received by a taxpayer from one or more controlled operations is considered to be at "arm's length" if the determination of cost or income is calculated in a manner that is no different from the way it is determined for comparable transactions between unrelated parties.

The List of Controlled Operations

For purposes of transfer pricing, controlled operations are defined as the following types of transactions, so long as the total income of the taxpayer and/or its related persons exceeds 150 million UAH (\approx EUR 3.4 million) per year and the volume of business transactions of the taxpayer with one counterparty exceeds 10 million UAH (\approx EUR 0.2 million) for the corresponding year:

- ▶ Business transactions conducted between a taxpayer and related parties that are non-residents (including through a non-related intermediary(ies) that does not perform any significant activities);
- ▶ Business transactions amounting to the sale or purchase of goods through a non-resident agent;
- ▶ Business transactions between a non-resident and its PE in Ukraine;
- ▶ Business transactions where one of the parties is a non-resident of legal forms (specific for each country) that do not pay tax on their foreign incomes and/or do not qualify as a tax resident in a country of their incorporation. The list of such forms in the respective countries is published by the Cabinet of Ministers of Ukraine;
- ▶ Business transactions where one of the parties is a non-resident registered in a country that is included in the list of low-tax countries published by the Cabinet of Ministers of Ukraine (including the countries with the CIT rate is at least 5% lower than in Ukraine).

Also 30% adjustment applies to income from sales to a resident of a low-tax jurisdiction or of a special legal form, or expenses on purchases from them unless a transfer pricing documentation proves an arm's length prices.

Annual Reporting and Penalties

For transfer pricing purposes, the reporting period is the calendar year. Taxpayers having transactions with controlled operations during the reporting year with a counterparty in amount exceeding UAH 10 million (\approx EUR 0.2 million) should submit a report on controlled operations and a notification on participating in a multinational group to the tax office before 1 October of the following year (in a prescribed format) and the transfer pricing documentation on them - within 30 days after the tax office's request.

Also big businesses are required to file a master file and a country-by-country report (if the group revenues exceed EUR 50 mln and EUR 750 mln respectively).

2.1.6. Withholding tax

Any income received by (and paid to) a non-resident company is subject to a withholding tax (WHT) in Ukraine at a rate of 15% unless an applicable double tax treaty provides otherwise and the income's beneficial owner is confirmed (also anti-avoidance rules apply to prevent treaty shopping). Such income includes dividends, interest, royalties, capital gains, lease payments, brokerage and agency commission, and so on. Income from a non-resident's sale of a Ukrainian real estate company is also subject 15% WHT.

Income received as consideration for goods/services/works provided to a resident is mostly WHT exempt. Different WHT rates apply to certain types of income paid to non-resident's (for example, freight, insurance premiums paid abroad, and advertising fees). Withholding tax rate may be reduced under an international taxation convention (Appendix 1).

Ukraine started to apply MLI in December 2019.

2.1.7. Taxation of non-residents acting via permanent establishment

Foreign entities that conduct commercial or non-commercial activities in Ukraine are required to follow the tax registration procedure and file the CIT returns for commercial activities via their permanent establishment (PE) in Ukraine.

PE is a fixed place of business through which economic activities of a non-resident in Ukraine are carried out wholly or partially, in particular: a place of management; branch; office; factory; workshop; installation or structure for the exploration of natural resources; mine, oil/gas well, a quarry or any other place of extraction of natural resources; warehouse or premises used for the delivery of goods, computer servers.

PEs are subject to normal corporate income tax. However, an exemption may be available if the activities of the non-resident do not lead to creation of a PE under the Tax Code or the relevant tax treaty. With regard to corporate income tax, taxable profits of a PE can be determined based on direct method where profits are determined as gross income (received offshore or onshore) less allowable expenses incurred by the PE.

2.1.8. Thin capitalisation

For a debtor whose debt obligations from transactions with non-resident related parties exceed its equity by more than 3.5 times (or by more than 10 times for financial institutions and companies involved exclusively in leasing activities),

the debtor's financial result before tax is additionally increased by the excess amount of interest on loans, borrowings, and other debt obligations over 30% of the financial result before tax, interest and depreciation (EBITDA).

Interest that exceeds this limit is added back (i.e., increases the financial result before tax). Annually the taxpayer may carry forward 95% of the remaining excessive interest (non-deducted during a year) until it is fully utilized.

2.1.9. Controlled Foreign Companies (CFC)

CFC's profits are taxed at 18% for legal entities and 5% or 9% for an individual. In order to control the taxation of profits of a controlled foreign company, the reporting (tax) period is a calendar year or other reporting period of the controlled foreign company ending within a calendar year.

2.2. Value added tax

2.2.1. Tax rates

In general terms, Ukraine uses input/output VAT system similar to the EU. VAT applies at the following rates:

- ▶ 20% is levied on the supply of goods and services in the customs territory of Ukraine and on the importation of goods and services to Ukraine.
- ▶ 7% - for medical drugs and products.
- ▶ 14% - import and local sales of some agricultural products.

Supplies of certain goods and services (for example, charitable aid, financial services, and so on) and export of software development, consulting and some other services, are exempt from, or not subject to, VAT. (That is, they are exempt without a right to VAT credit).

Export supplies of goods are zero-rated. (That is, they are exempt with a right to VAT credit).

Since 2022 e-supplies of services to individuals in Ukraine are subject to 20% VAT and the foreign providers must VAT register in Ukraine (if their sales in Ukraine exceed UAH 1 million (≈ EUR 22.9 thousand) for any preceding 12 month period), add 20% VAT to the price and file the monthly VAT returns, and settle the VAT to the state.

2.2.2. Registration for VAT purposes

Registration as a VAT payer is compulsory for all Ukrainian companies, individuals, and permanent establishments of non-resident companies that qualify as VAT payers (in other words, those whose volume of transactions subject to VAT exceeds UAH 1 million (≈ EUR 22.9 thousand) for any preceding 12 months of operation).

Taxpayers whose volumes of transactions do not reach the mandatory threshold can voluntarily register as VAT payers.

2.2.3. VAT mechanism

The amount of VAT that a registered VAT payer incurs on local purchases of goods and services (so-called input VAT) can be credited against the taxpayer's VAT liabilities (so-called output VAT) in computing the final VAT payable to (or refundable from) the government. The input VAT amount in excess of the taxpayer's VAT liabilities may be used to offset VAT liabilities of subsequent tax periods, or it can be refunded in cash.

VAT on import of goods (payable to the customs) and services is collected through a reverse charge mechanism (sometimes referred to as "import VAT"). This mechanism requires self-assessment and payment of the 20% VAT by a Ukrainian importer for the tax period (which is a month under the VAT system) when goods/services are imported to Ukraine. The paid VAT can usually be claimed by the Ukrainian importer as a VAT credit in the same tax period. If the goods or services imported are used in transactions that are not subject to VAT, or for transactions outside the business activity of the Ukrainian importer, the import VAT cannot be recovered, and it becomes a cost to the Ukrainian importer.

The reverse charge mechanism does not apply if a non-resident service provider has a PE registered as a VAT payer in Ukraine. In such a case, the VAT registered PE is in charge of assessing VAT liabilities, offsetting them against the input VAT, and paying the difference to the government.

2.2.4. System of electronic VAT administration

VAT payers are automatically assigned with accounts in the system of electronic VAT administration. The system of electronic VAT administration ensures automated VAT accounting in respect of each taxpayer. Upon sale VAT payers must register all VAT invoices in the system that is a pre-condition for recognition of VAT credit by a customer/buyer.

2.2.5. VAT reporting

For VAT purposes, the reporting period is a calendar month (though in rare cases of low volume activities it can be a quarterly reporting period). VAT payers are required to file VAT returns within 20 days after the end of the reporting month. VAT payable, if any, should be remitted to the government within 30 days after the end of the reporting month.

2.3. Unified tax

Legal entities and individual entrepreneurs may choose to pay taxes pursuant to so-called “simplified taxation system”, if they meet certain thresholds. In such cases, they can be registered as unified taxpayers (UT). Unified taxpayers are exempt from some taxes. For example, depending on the UT taxpayer group, UT is a substitute for corporate income tax, personal income tax regarding the business activity of an individual, VAT (unless the taxpayer chooses to pay Unified Tax at a reduced rate plus VAT), land tax (on land used for business purposes), and so on.

If a taxpayer engages in certain, specifically excluded types of business activities or is owned by a non-resident, they cannot qualify as unified taxpayers. The types of activities listed include, for example, currency exchange, production, export, import or local sales of excisable goods, gambling, financial services, and so on. Non-resident individuals of Ukraine are also not allowed to be registered as unified taxpayers. UT taxpayers are also subject to simplified tax reporting requirements.

The unified tax system consists of 4 groups. The reporting period for Groups 1, 2, and 4 is the calendar year, for Group 3 it is quarterly.

Details about Unified Tax Groups, as well as the income thresholds, types of activities UT taxpayers may engage in, and the UT rates are provided in Appendix 2.

3. TAXATION OF INDIVIDUALS

3.1. Personal income tax

In Ukraine, individuals are subject to PIT depending on whether they are tax residents or not. Individuals who are tax residents of Ukraine are taxed on their worldwide income and non-residents are taxed on their Ukraine-sourced income only. Under Ukrainian law, Ukraine-sourced income is income derived by an individual as a result of any labour or business activity performed in Ukraine, including remuneration for the work performed in Ukraine, whether paid by a Ukrainian or a foreign company.

Under Ukrainian law, an individual can be considered a tax resident of Ukraine if he/she meets the Ukrainian tax residency criteria, which are as follows:

- ▶ An individual is considered a Ukrainian tax resident if he/she has a domicile in Ukraine.
- ▶ If the individual also has a domicile in another country, the individual is deemed to be resident of Ukraine provided he/she has a permanent place of residence in Ukraine.
- ▶ If the permanent place of residence is also available in another country, the individual is deemed to be resident of Ukraine provided his/her centre of vital interests is situated in Ukraine.
- ▶ If it is not possible to determine the actual centre of vital interests, or if the individual does not have a permanent place of residence in any country, the individual is deemed to be tax resident of Ukraine if he/she stays in Ukraine at least 183 days during a calendar year.

In Ukraine, both resident and non-resident individuals are taxable at the tax rate of 18%.

Dividends income is taxed that the rate of 5% if the dividends payer is a corporate income taxpayer and 18% in other cases.

Interest on bank deposits and current accounts is taxed at the rate of 18%.

Generally, any benefit provided by the individual's employer is subject to tax in Ukraine, unless such benefit and/or reimbursement of expenses is provided by the Ukrainian employer and is connected with the employment duties of the employees according to the employment agreement or in a collective agreement.

Under Ukrainian law, income received from foreign sources, or income from Ukrainian sources that was not taxed at source, is subject to taxation in Ukraine based on an annual tax return. The obligation to report this income in Ukraine and to pay the tax rests with the individual. The tax return is filed with the district/city tax authorities' office at the place of the individual's domicile in Ukraine.

The annual tax return is due by 30 April of the year after the end of the calendar year. The self-assessed tax is due by 31 July of the year after the end of the calendar year. The tax can be paid in UAH only.

If a remuneration to an individual (whether the individual is a tax resident or non-resident) is paid through the payroll of a Ukrainian entity, the income tax is withheld at source. In such cases the individual is not required to submit any tax return in Ukraine.

Where Ukraine has an international treaty (that is, a double taxation treaty) that provides for tax treatment other than that provided under Ukrainian law, the rules of the international treaty prevail over domestic legislation.

3.2. Military charge

In addition, a temporary "military charge" has been introduced from 2014 that will be effective until the end of martial law. As of December 01, 2024, the rate of the military tax is 5% of employment income (withheld by the employer, or self-assessed on the PIT return together with PIT self-assessment) and is applied in respect of all other types of income that is subject to personal income tax.

Moreover, as of October 01, 2024, the military tax will be introduced for individual entrepreneurs. For these taxpayers, the military tax is introduced at the following rates (effective as of January 01, 2025):

- ▶ 10% of the minimal wage (i.e., UAH 800 = EUR 18 monthly) – for the groups 1, 2, 4;
- ▶ 1% of the revenue – for the group 3.

3.3. Tax data exchange

In 2022 Ukraine joined the Common Reporting Standards multilateral agreement. In Sep 2024 Ukraine exchanged the tax information with agreed countries for the first time, for 2023 calendar year.

UNIFIED SOCIAL CONTRIBUTION

In addition to personal income tax (PIT), remuneration, allowances, and similar payments made to employees (whether Ukrainian or foreign nationals) through a Ukrainian payroll are subject to the unified social security contribution (USC), which is paid by an employer at its expense. Only foreign individuals working in a foreign company's representative office are not subject to USC.

The monthly taxable base for USC is capped at 15 times the minimum wage (in 2024 the cap equals to UAH 120,000/month or ≈ EUR 2,752/month).

USC due from the employer is payable when the remuneration is paid. Employers' contribution is 22% of the gross income, up to the monthly cap.

5. OTHER TAXES

5.1. Customs duty

Importation of equipment, machinery, materials, and other goods is usually subject to Ukrainian import duties. No import (customs) duties apply if a foreign shareholder (investor) contributes equipment and machinery to the share capital of its Ukrainian subsidiary, provided the Ukrainian company does not dispose of the contributed equipment and machinery within three years.

In-kind capital contributions are, however, subject to Ukraine's 20% VAT under the reverse charge regime.

Import (customs) duties are levied on the customs value of imported goods and are calculated in a variety of ways:

- ▶ as an ad valorem tax (that is, as a percentage of the customs value of the imported goods),
- ▶ as a certain fixed amount per imported item, or
- ▶ as a combination of the two.

Regular Ukrainian customs duty rates on import of specific goods are set out in the Law of Ukraine "On the Customs Tariff of Ukraine".

Reduced rates of customs duties apply to goods originating from most favoured nation countries (subject to providing certificate of origin). Full rates apply to goods from other countries.

The import of goods is subject to 20% VAT that is paid using the reverse charge mechanism. The amount of VAT is assessed based on the customs value of the imported goods plus import customs duties and excise duties. Also, if excisable goods are imported in Ukraine (for example, cigarettes, alcohol products, and so on), the importer is required to pay excise duty before customs clearance. Export of goods from Ukraine is generally subject to 0% Ukrainian VAT (exemption with credit) and is typically exempt from customs duties.

5.2. Excise tax

Excise tax rates on imports are assessed at rates on the sum of the declared customs value and customs duties, without VAT. Payment should be made in Ukrainian currency at the Ukrainian National Bank exchange rate effective on the date of payment. Excise tax is also paid by Ukrainian manufacturers of excisable goods.

Excise tax is paid on cars, tobacco, alcoholic beverages, fuel, and electric energy.

As well, a 5% excise tax was introduced on retail sales of excisable goods such as tobacco, beer and alcoholic beverages. This tax is charged by the retail sales companies.

5.3. Property Tax

For property tax purposes, residential and non-residential property owned by individuals and legal entities are considered taxable objects. The tax base is the total area of residential and non-residential property. The tax rate is up to 1.5% of the minimum wage per 1 sq.m. of the taxable base (in 2025 the minimum wage is UAH 8 000 or ≈EUR 181, thus UAH 120 per sq.m.).

The tax period for property tax purpose is the calendar year.

Chart of withholding tax rates

The following chart presents a list of withholding tax rates that may be applicable to certain types of income derived from the Ukraine by non-residents of Ukraine.

Notes:

(1) Figures in the brackets in the "Dividends" column indicate the minimum percentage share ownership a foreign shareholder in a Ukrainian company must own in order for the reduced WHT rate to apply (provided such shareholder is the beneficial owner of such dividends).

(2) Figures indicated in the table above separated by a slash (/) suggest that different WHT rates may apply to a particular type of income under the relevant double taxation treaty, depending on the circumstances.

Unified tax groups information

GROUP	NUMBER OF EMPLOYEES	INCOME FOR CALENDAR YEAR	TYPES OF ACTIVITIES	UT RATE: FIXED (% OF MINIMUM WAGE DATED AS AT 1ST OF JANUARY) OR % OF INCOME/ VALUE
1. Individuals - entrepreneurs	None	No more than UAH 1,185,700 (USD 29,650)	Retail sales of goods at markets, rendering of consumer services to individuals	Up to 10% of minimum income (UAH 302,8 per month in 2024)
2. Individuals - entrepreneurs	No more than 10 employees (simultaneously)	No more than UAH 5,921,400 (USD 148,000)	Rendering services (including consumer services) to the unified taxpayers and individuals; goods manufacturing and sale; catering	Up to 20% of minimum wage (UAH 1,420 per month in 2024)
3. Individuals - entrepreneurs & legal entities	Not limited	No more than UAH 8,285,700 (USD 207,140)	All type of business activities (except excluded activities)	a) 3% of income + VAT b) 5% of income without VAT
4. Agricultural producers	Not limited	Agricultural production for the previous year not less than 75%	Agriculture	0.19%-6.33% of the agricultural land value

Export Credit Agency (ECA) programs

ECA provides investment insurance in Ukrainian export-oriented production!

The Supervisory Board of the Export Credit Agency has implemented new insurance investment products against military and political risks according to the Law of Ukraine 3497-IX.

How does this work?

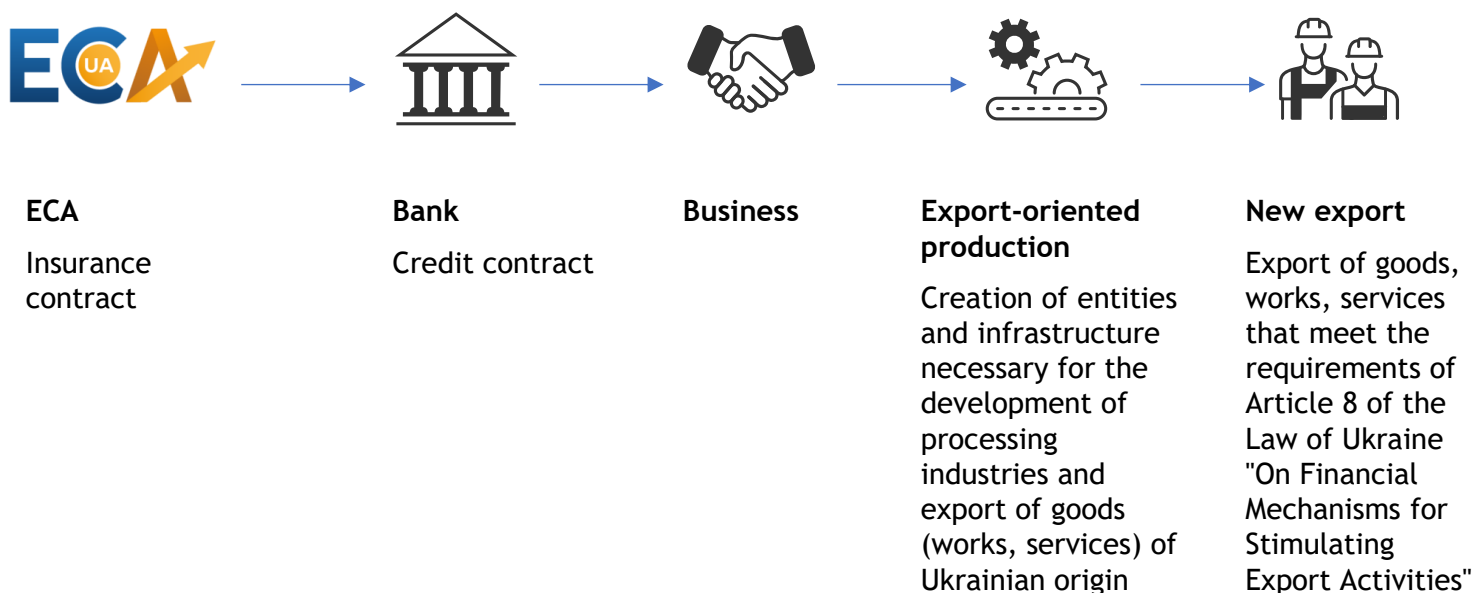

Direct investment insurance:

- ▶ Investor (resident or non-resident) owns a share of over 10%.
- ▶ The investment is aimed at the development of the processing industry and export.
- ▶ Investees in Ukraine (except for combat zones and occupied territories).
- ▶ The products meet the requirements of the profile for the ECA legislation of Ukraine.
- ▶ Protection from war risks: war, aggression, conflicts, terrorism, occupation.
- ▶ Maximum amount: UAH 200 million
- ▶ Rate: 0.49%-8.01%.

Insurance of investment loans:

- ▶ Credit is given to the Ukrainian business entity.
- ▶ The credit is aimed at the creation of entities for export.
- ▶ Entities in Ukraine (except zones of combat and occupied territories).
- ▶ Protection from war risks: war, aggression, conflicts, terrorism, occupation.
- ▶ Maximum amount: UAH 200 million
- ▶ Rate: 0.95%-4.05

Export Credit Insurance

1. A business entity provides the bank with a business plan or feasibility study justifying the impact of credit funds on future exports
2. ECA insurance covers non-repayment of the credit solely due to the political and military risks.

NEW! Insurance of direct investments in Ukraine against military and/or political risks

Investor-Insured

- ▶ Individual/legal entity
- ▶ Resident/non-resident
- ▶ Private/state
- ▶ Connected person with the investee

← Insurance contract →

Direct Investment

- ▶ This is an economic operation that provides for the contribution of capital investments in exchange for ownership rights, received from another person (or an investee), or such person.
- ▶ If the investee is a limited liability company or a joint-stock company, the acquisition or increase of corporate rights in the investee, along with parts of such companies.

Investment Object

- ▶ A legal entity located in Ukraine, except for the temporary occupied areas
- ▶ The purpose of **direct investment** is the creation of entities and infrastructure necessary for the development of processing industries and export of goods (works, services) of Ukrainian origin:
- ▶ Goods (works, services) that are exported because of investment, must meet the requirements of Article 8 of the Law of Ukraine "On Financial Mechanisms for Stimulating Export Activities"

Having all necessary permits and licenses for corporate rights of the investor, they must not exceed 10%

Diia.City - preferable special tax regime for IT industry in Ukraine

provides unique tax and legal space for IT business, making it easier and less expensive to manage and operate your business.

Labor Taxes:

- ▶ Personal income tax – **5%** vs 18% on general taxation
- ▶ Social Security fee – **22%** of the min wage (apx. **45 EUR** person / month) vs 22% on full gross salary on general taxation (with an upper limit)
- ▶ Military tax – **5%**

Corporate Tax:

- ▶ **9%** exit capital tax or **18%** income tax

Diia.City conditions fixed for 25 years

The state guarantees residents of the Diia.City the stability of conditions for 25 years, as well as observance of the rights and legitimate interests of residents and the specialists.

If your company has such financial indicators (example):

- Revenue – €200,000
- Founders' dividends /NI – €20 000
- Staff – 10 people
- Average salary – €1,200/month (€144,000 gross per annum)

Such a company and its employees are going to pay €21.6K in taxes within the Diia.City annually:

- Income tax: €0 (vs €3,600)
- Exit Capital Tax: €1,800
- **Personal Income Tax + Military Tax: €14,400 (vs €28,080)**
- Social security fee: €5,400 (vs € 31,680)

Currency limits and restrictions

At the beginning of the full-scale invasion, the National Bank of Ukraine (the NBU) defined a series of currency restrictions to stabilize the financial system's operations. However, as of May 13, 2024, some of these restrictions have been relaxed or completely removed. Below is a non-exclusive list of the limits and restrictions that remain in effect in Ukraine.

- ▶ The **deadline for settlement** of export and import transactions over UAH 400,000 (≈ EURO 8,800) is limited to 180 calendar days and applies to transactions carried out from 05.04.2022. The term of 365 days applies to transactions carried out before 05.04.2022.
- ▶ **Dividends:** since May 13, 2024, repatriation of eligible dividends up to EUR 1 million (or its equivalent) per month is permitted. Eligible dividends include those accrued from January 1, 2024, onward, but exclude undistributed dividends from earlier periods and reserve capital
- ▶ **“Old” cross-border loans:** Interest on loans received before June 21, 2023, that was due between February 24, 2022, and April 30, 2024, can be paid up to EUR 1 million (or its equivalent) per calendar quarter. Interest on these loans due after April 30, 2024, can be paid without any monetary limitations.
- ▶ **“New” cross-border loans:** permitted to repay foreign loans within the first year using only own foreign currency funds, then purchasing is allowed. Interest and other loan-related fees can be paid with both owned and purchased foreign currency. The interest rate must not exceed 12% annually.
- ▶ **Financing of branches of representative offices** abroad is possible provided that transfers are made: (a) during the current calendar year within the total amount of funds transferred by the resident during 2021 for the maintenance of its branches, representative offices (no more than 1/4 of this amount may be transferred within one calendar month); and (b) at the expense of the resident legal entity's own funds in foreign currency; and (c) through one bank, and (d) only for covering the branches' operational expenses.
- ▶ **Representative offices of international card payment systems and foreign airlines** are allowed to transfer up to EUR 5 million (or its equivalent) per month to their parents.
- ▶ **Cash:** issuance of cash in foreign currency has a daily limit of UAH 100,000 (or its equivalent) (≈ EUR 2,250), except in certain cases.
- ▶ State-owned companies will be able to purchase and transfer foreign currency in favor of nonresidents to buy emission quotas to cover or compensate for carbon dioxide (CO₂) emissions associated with aviation activities.
- ▶ Since September 6, 2024, the NBU has set a monthly limit of an equivalent of UAH 100,000 (≈ EURO 2,293) for payments to FX accounts abroad using payment cards issued by Ukrainian banks, for transactions under merchant category codes 5094 (precious stones, metals, and jewelry), 5944 (watches, jewelry, and silverware), and 5972 (stamp and coin stores). This limit is in line with the general limit set by the NBU for payments abroad using payment cards issued by Ukrainian banks to accounts in the domestic currency.
- ▶ Since September 6, 2024, the NBU has set a monthly limit of an equivalent of UAH 500,000 (≈ EURO 11,000) for payments to FX accounts abroad using payment cards issued by Ukrainian banks, for transactions under the merchant category code 6513 (real estate agents and managers). Transactions under this code are executed to pay management fees, rental fees, and other related commissions.

Valuation of war damage

Businesses in Ukraine have experienced substantial and ongoing financial losses due to Russia's military aggression. This has led to severe damages, disruptions in production processes and supply chains, and human casualties.

According to **estimations by Kyiv School of Economics**, as of January 2024 the total amount of damage caused by Russia to Ukraine's infrastructure exceeded \$154,9 billion (at replacement cost).

Agricultural war damages, losses, and needs amount \$40 billion, including direct and indirect losses.

To get reimbursement for the damage caused, the first step is to record and assess the damage from the war.

Damage valuation methodology

Valuation of damage and lost profits due to Russian aggression is carried out in accordance with the **Methodology** approved on 18.10.2022 by the Ministry of Economy of Ukraine and the State Property Fund of Ukraine.

	Property type	Damage assessment, \$ billion
	Housing	58,9
	Infrastructure	36,8
	Assets of enterprises, industry	13,1
	Education	6,8
	Agriculture and land resources	8,7
	Energy	9,0
	Forests	4,5
	Transport	3,1
	Trade	2,6
	Culture, sport, tourism	2,4
	Healthcare	3,1
	Utilities	4,5
	Electronic communications	0,6
	Administrative buildings	0,5
	Digital infrastructure	0,5
	Social sphere	0,2
	Financial sector	0,04
	Total	154,9

Data by Kyiv School of Economics (KSE)

The assessment of damages accordance with this Methodology serves to determine:

- ▶ Damages caused by armed aggression within the scope of criminal proceedings in accordance with the legislation of Ukraine.
- ▶ Damages caused by armed aggression for the purpose of victims' claims for compensation.
- ▶ Damages caused by armed aggression for the purpose of filing lawsuits by victims to judicial authorities, including international ones.

According to this Methodology the types of damages are as follows:

- ▶ Real damages.
- ▶ Lost profit/benefits.
- ▶ Expenses necessary to restore property and property rights impacted due to aggression.

The valuation is carried out by independent valuers or court experts.

The damage valuation report is valid until the date of compensation (inclusive).

Privatization process in Ukraine

I. Classification of privatization objects

1. The objects of small-scale privatization shall include:

- ▶ unified property complexes of state and municipal enterprises and their structural subdivisions, including unified property complexes and their structural subdivisions leased out, except for unified property complexes of state and municipal enterprises that are objects of large-scale privatization;
- ▶ separate property;
- ▶ objects of unfinished construction (buildings, structures, transmission devices that have not been put into operation), conserved objects;
- ▶ objects of social and cultural purpose.
- ▶ blocks of shares of a joint-stock company formed in the process of privatization or corporatization, shares (stakes) owned by the state in the authorized capital of business entities, other business organizations and enterprises based on the combination of property of different forms of ownership and located in Ukraine or abroad, except for blocks of shares of joint-stock companies that are objects of large-scale privatization;
- ▶ pools and other objects that do not belong to the objects of large-scale privatization.

2. Large-scale privatization objects

include objects of state or municipal ownership (single property complexes of state-owned enterprises and blocks of shares (stakes) in business entities in the authorized capital of which more than 50 percent of the shares (stakes) are owned by the state) and pools whose asset value (for a pool - the total value of the assets of privatization objects from which the pool is formed), according to the financial statements for the last reporting year, exceeds UAH 250 million.

Who may not be buyers within the framework of privatization:

- ▶ state authorities;
- ▶ state-owned enterprises owned by the state of Ukraine;
- ▶ state economic associations, state holding companies, state joint stock companies (companies), their subsidiaries and enterprises;
- ▶ employees of state privatization bodies;
- ▶ buyers registered in offshore zones (according to the list determined by the Cabinet of Ministers of Ukraine) with a non-transparent ownership structure (whose beneficial owners are not disclosed by 100 percent), as well as buyers originating from the aggressor state;
- ▶ the state recognized by the Verkhovna Rada of Ukraine as the aggressor state, as well as legal entities in which such state has participation and persons controlled by such legal entities;
- ▶ legal entities whose beneficial owners of 10 percent or more of the shares (stakes) are residents of a state recognized by the Verkhovna Rada of Ukraine as an aggressor state. This provision does not apply to legal entities whose shares are admitted to trading on foreign stock exchanges according to the list of the Cabinet of Ministers of Ukraine, except for legal entities that are residents of the aggressor state;
- ▶ individuals - citizens and/or residents of the state recognized by the Verkhovna Rada of Ukraine as the aggressor state;
- ▶ legal entities registered in accordance with the laws of the countries included by the FATF in the list of countries that do not cooperate in the field of combating money laundering, as well as legal entities with 50 percent or more of the authorized capital owned directly or indirectly by such persons;
- ▶ legal entities whose information on beneficial owners has not been disclosed in violation of the Law of Ukraine "On State Registration of Legal Entities, Individual Entrepreneurs and Public Organizations";
- ▶ individuals and legal entities subject to special economic and other restrictive measures (sanctions) in accordance with the Law of Ukraine "On Sanctions", as well as their related parties;
- ▶ persons who were a party to the sale of a privatization object in Ukraine and with whom the sale and purchase agreement for the privatization object was terminated due to a breach by such persons, as well as persons related to them;
- ▶ persons included in the Register of persons having significant economic and political influence in public life (oligarchs) in accordance with the Law of Ukraine "On Prevention of Threats to National Security Related to Excessive Influence of Persons Having Significant Economic and Political Influence in Public Life (Oligarchs)".

II. Sale process:

1. Sale of small-scale privatization objects:

- ▶ Small-scale privatization objects are sold exclusively at electronic auctions.
- ▶ An electronic auction shall be held in accordance with an agreement concluded between the auction organizer and the operators of electronic platforms.
- ▶ The standard agreement between the auction organizer and operators of electronic platforms shall be approved by the State Property Fund of Ukraine.
- ▶ Information about the auction participants and information about potential buyers shall be treated as confidential information and shall not be disclosed until the auction is completed.

2. Sale of large-scale privatization objects:

- ▶ The terms of sale and starting prices of large-scale privatization objects of state ownership at auctions shall be approved by the Cabinet of Ministers of Ukraine.
- ▶ Prior to the first auction for the sale of a large-scale privatization object, the Cabinet of Ministers of Ukraine simultaneously approves the starting prices and conditions for the sale of a large-scale privatization object at auctions.
- ▶ The procedure for conducting electronic auctions for the sale of large-scale privatization objects, the amount and procedure for payment of the fee for participation in an electronic auction, and determination of the winner based on the results of an electronic auction shall be approved by the Cabinet of Ministers of Ukraine.
- ▶ The specifics of the sale of large-scale privatization objects in municipal ownership may be established by a decision of the relevant representative body of local self-government.

Completion of the auction

The winner of the auction who refuses to sign the auction protocol or the sale and purchase agreement or fails to pay the sale price of the privatization object within the established time limit, is deprived of the right to participate in subsequent auctions for the sale of the same object.

Upon completion of the auction, the guaranteed deposit paid by potential buyers shall be refunded to potential buyers who did not win the auction within a period not exceeding 10 business days from the date of approval of the auction protocol by the privatization body.

In case the winner of the auction refuses to sign the auction protocol or to conclude the sale and purchase agreement, or in case he fails to pay the sale price of the privatization object within the established time limit, the guaranteed fee shall not be refunded and shall be transferred to the relevant budget.

The winner of the auction shall be credited with the guaranteed fee, minus the fee for participation in the electronic auction, when paying for the privatization object.

Execution of privatization transactions

The contract of sale of the privatization object shall be concluded between the privatization body and the winner of the electronic auction after payment in full of the sale price of the privatization object and within 25 working days - for small-scale privatization objects, 35 working days - for large-scale privatization objects from the date of formation of the protocol on the results of the electronic auction.

If it is necessary to prepare documents for the notarization of the sale and purchase agreement for a privatization object by decision of the state privatization body, the state privatization body and the winner of the electronic auction shall conclude a preliminary sale and purchase agreement for the privatization object.

The costs associated with the preparation of documents for notarization of the sale and purchase agreement for the privatization object shall be borne by the winner of the electronic auction. In this case, the sale and purchase agreement for the privatization object shall be concluded within 60 business days from the date of conclusion of the preliminary agreement.

The ownership of the privatization object is transferred to the buyer after the conclusion of the contract for the sale and purchase of the privatization object and the signing of the act of acceptance and transfer of the privatization object, except in cases of transfer of ownership of a block of shares.

The ownership of the acquired block of shares is transferred to the buyer after the conclusion of the contract of sale of the privatization object and from the moment the block of shares is credited to the buyer's securities account in a depository institution.

Financial state support programs

Ukraine has a number of government programs aimed at providing financial support to businesses, namely

The State Program “Affordable Loans 5-7-9%” provides for:

Interest compensation to a business entity in order to reduce its actual costs of paying the base interest rate to the appropriate level:

- ▶ up to 1 percent per annum in the first two years of lending, and 5 percent per annum thereafter - for business entities carrying out economic activities and/or whose production facilities are located in the high military risk zone for investment purposes;
- ▶ up to 3 percent per annum - for business entities operating and/or whose production facilities are located in the area of high military risk for operating capital financing.

For business entities conducting business activities outside the zone of high military risk, the compensation interest rate is reduced:

- ▶ to the level of 5 or 7, or 9 percent per annum- for loans granted for investment purposes;
- ▶ to the level of 7 or 9, or 13 percent per annum - for loans granted for operating capital financing;
- ▶ up to 15 percent per annum - for loans granted to an individual entrepreneur.

Within the framework of the State Program "Affordable Financial Leasing 5-7-9%":

Compensation of remuneration to a business entity in order to reduce its actual costs of paying basic remuneration to the appropriate level:

- ▶ to the level of 9 or 11 per cent per annum - for financial leasing agreements concluded in non-priority areas;
- ▶ to the level of 5 or 7 per cent per annum for financial leasing agreements concluded in priority areas.

Support under factoring agreements includes:

- ▶ maximum financing limit per counterparty and group - up to UAH 150 million (taking into account received state support under lending and leasing programs);
- ▶ maximum term of factoring financing use for a business entity - 360 days.

These programs are mainly regulated by the Resolution of the Cabinet of Ministers of Ukraine On providing financial state support No. 28 dated 24.01.2020.

Investment Nanny Program

This program provides for:

- ▶ CIT exemption (for 5 years by choice)
- ▶ Exemption from VAT for importing new equipment and components to it and Exemption from import duties for new equipment and components to it (the list and volumes of equipment are approved by the Cabinet of Ministers for each project)
- ▶ Lease of state or communal land plots without land auctions
- ▶ Land tax exemption or reduced land tax rates, etc.

This program is mainly regulated by the Law of Ukraine “On State Support of Investment Projects with Significant Investments in Ukraine” No. 1116-IX dated 17.12.2020 and the Law of Ukraine “On Amendments to the Tax Code of Ukraine Concerning Peculiarities of Taxation of Business Entities Implementing Investment Projects with Significant Investments in Ukraine” No. 1293-IX dated 02.03.2021.

Requirements for an investment project with significant investments for which state support may be provided:

- ▶ An investment project is implemented on the territory of Ukraine in the areas of processing industry (with some exceptions), extraction for further processing and/or enrichment of minerals (with some exceptions), waste management, transport, warehousing, postal and courier activities, logistics, education, scientific and scientific and technical activities, healthcare, art, culture, sports, tourism and resort and recreational activities, information and electronic communications, real estate transactions, production of energy-efficient building materials, climate control equipment and equipment for heating, ventilation, air conditioning, and hot water supply systems.
- ▶ An investment project involves the construction, modernization, technical and/or technological re-equipment of investment objects, purchase of necessary equipment and components thereto, and may also involve the construction of adjacent infrastructure facilities necessary for the implementation of an investment project at the expense of an investor.
- ▶ Creation of an investment project with significant investments during the period of implementation of the project at least:
 - ▶ **10 new jobs** with an average salary of employees not less than 50 % higher than the real average salary for the relevant type of activity in the region where the project is implemented for the previous calendar year; or
 - ▶ **30 new jobs** with an average salary of employees that is at least 30 % higher than the real average salary for the relevant type of activity in the region where the project is implemented for the previous calendar year; or
 - ▶ **50 new jobs** with an average salary of employees that is at least 15 % higher than the real average salary for the relevant type of activity in the region where the project is implemented for the previous calendar year;.
- ▶ The amount of significant investments in the investment objects during the term of implementation of the investment project exceeds the amount equivalent to **EUR 12 million**.
- ▶ The term of implementation of an investment project does not exceed **5 years**.

Government Support for Major Investment Projects

[The Law of Ukraine “On Government Support for Major Investment Projects”](#) defines the organizational, legal and financial framework for state support of investment projects to create favourable conditions for attracting significant investments (domestic and foreign) to Ukraine, creating new jobs, stimulating economic development of regions and increasing the competitiveness of the Ukrainian economy.

Areas of project implementation

To receive government support, an investment project with major investment should be implemented in Ukraine in the following areas:

- ▶ processing industry (except for activities related to the production and sale of tobacco products, ethyl alcohol (except for the production of bioethanol intended for use as a fuel component), cognac and fruit, alcoholic beverages);
- ▶ production of biogas and biomethane (including liquefied or compressed);
- ▶ extraction of minerals for further processing and/or enrichment (except for coal and lignite, crude oil and natural gas);
- ▶ waste management;
- ▶ transport;
- ▶ logistics;
- ▶ warehousing;
- ▶ postal and courier activities;
- ▶ education;
- ▶ scientific and scientific-technical activities;
- ▶ healthcare;
- ▶ art and culture;
- ▶ sports;
- ▶ tourism;
- ▶ resort and recreation;
- ▶ electronic communications.

Requirements for investment projects

- ▶ **Minimum investment:** The project should involve investments of at least EUR 12 million for the implementation of the investment project.
- ▶ **Construction and modernization:** An investment project involves the construction, modernization, technical and/or technological re-equipment of investment objects in certain areas, and the purchase of the necessary equipment and components.
- ▶ **Creation of new job positions:** The project must ensure the creation of at least:
 - 10 new job positions with an average salary of employees at least 50 per cent above the actual average salary;
 - 30 new job positions with an average salary at least 30 per cent above the real average salary;
 - 50 new job positions with an average salary at least 15 per cent above the real average salary.
- ▶ **Duration of project implementation:** The maximum project implementation period may not exceed 5 years from the date of conclusion of the special investment agreement.

Forms of providing government support for major investment projects

Government support for major investment projects may be provided to an investor with major investments in the following forms:

- ▶ exemption from certain taxes and fees;
- ▶ exemption from import duty on new equipment and components imported exclusively for the implementation of an investment project;
- ▶ provision of the preemptive right to use a state-owned or municipally owned land plot for the implementation of an investment project – provision of a state-owned or municipally owned land plot for use (lease) for the implementation of an investment project and with the investor's preemptive right to acquire the land plot upon termination of the agreement;
- ▶ provision at the expense of the state, local budgets and other sources not prohibited by law of construction of engineering and transport infrastructure facilities (roads, communication lines, heat, gas, water and electricity supply, engineering communications, etc.) or compensation at the expense of the state, local budgets and other sources not prohibited by law, for the cost of engineering and transport infrastructure facilities built by the applicant or investor with major investments necessary for the implementation of the major investment project;
- ▶ compensation for the costs of connecting and joining the engineering and transport networks necessary for the implementation of the project;
- ▶ exemption from compensation for losses of the investor's forestry production.
- ▶ assistance to the investor when connecting to heat, gas, water and electricity supply networks, engineering communications, etc.

The total amount of government support for the implementation of an investment project is set out in a special investment agreement and should not exceed 30% of the planned amount of major project investments.

Special investment agreement

To get government support, an investor should enter into a special investment agreement with the Government of Ukraine. This agreement contains, in particular, the following mandatory terms and conditions:

- ▶ Investment amount.
- ▶ Project implementation period.
- ▶ The number of job positions created and their minimum wage.
- ▶ Terms and forms of government support, etc.

Requirements to investors

- ▶ An investor can be either a domestic or a foreign legal entity.
- ▶ The investor should register an investment company in Ukraine, which will be responsible for the implementation of the project.
- ▶ The investor should confirm the amount of significant investments made into the investment object.

The Law of Ukraine "On Industrial Parks"

The Law of Ukraine "On Industrial Parks" (Law) defines the legal and organizational grounds for establishing and operating the industrial parks within the territory of Ukraine to ensure economic development and increase the competitiveness of regions, activate investment activities, create new jobs, develop modern industrial and market infrastructure.

Legislation on Industrial Parks:

The Constitution of Ukraine, the Civil Code of Ukraine, The Economic Code of Ukraine, The Land Code of Ukraine, the Tax Code of Ukraine, the Customs Code of Ukraine, this Law, the Law of Ukraine "On Regulation of City Planning Activity," other legislative acts of Ukraine, as well as international treaties of Ukraine ratified by the Verkhovna Rada of Ukraine.

State support for industrial parks

The Law of Ukraine's "On Industrial Parks" and respective changes to the Tax Code and the Customs Code provide state incentives for investment parks. The following incentives are available for initiators of the creation of industrial parks, their management companies, and participants:

- ▶ exemption from income tax for ten years, subject to reinvestment in the development of the investment project;
- ▶ exemption from VAT on the import of new equipment for own use;
- ▶ the possibility of granting benefits for real estate taxation on the territory of industrial parks by decision of the local authority;
- ▶ exemption from import duty taxation of new equipment imported by participants of industrial parks for their use;
- ▶ non-refundable financing to arrange an industrial park and/or construction of related infrastructure facilities (highways, communication lines, heat, gas, water and electricity, utilities, etc.);
- ▶ compensation for connecting to engineering grids (incl. compensation for connecting to the electric grid, national railway system, gas-, heat- and water supply networks).

Initiators of industrial parks

Land of state or communal property	Private property lands
State authorities, local self-government bodies, which are empowered to dispose of land plots, as well as tenants	Owners or tenants (legal entities or individuals)

Terms of use

The land plot to be used for the creation and operation of the industrial park may be located within or outside settlements and must meet the following requirements:

- ▶ belong to industry lands;
- ▶ be suitable for industrial use, taking into account the conditions and restrictions established by the relevant urban-planning documentation
- ▶ have an area of 10 to 1000 ha.

The use of land plots on lands of state or municipal property is carried out in compliance with the following conditions:

- ▶ the period of use of a land plot within the scope of an industrial park must be liable at least 30 years from the date of deciding to create an industrial park;
- ▶ the use of land plots must respond to sanitary, epidemiological, and environmental requirements.

Facilities that may be located in the industrial park include:

- ▶ offices of the management company, participants and other entities of the industrial park, financial institutions, objects of marketing and advertising;
- ▶ preschool education institutions, general secondary education institutions, institutions of higher, professional higher, and professional (vocational and technical) education;
- ▶ science parks, accelerators, and laboratories for the development of innovative technologies;
- ▶ multi-purpose halls for scientific conferences and other events;
- ▶ fire brigades;
- ▶ green areas;
- ▶ industrial, warehouse buildings and structures, logistics infrastructure facilities;
- ▶ engineering buildings and structures;
- ▶ waste management facilities (except waste disposal);
- ▶ other objects not prohibited by Law.

Sources of provision of finance for the development of an industrial park

The sources of provision of finance for the development of an industrial park may be funds from the state and local budgets allocated following the procedure and amounts provided for by Law, funds from private investors, including funds attracted under the model of state-private partnership, attracted funds, including loans from banks and other financial and credit institutions, funds from other sources not prohibited by Law.

Creation of the Industrial Park

The initiator makes the decision to create an industrial park of the creation based on the concept of an industrial park approved following the requirements of this Law.

The initiator of the creation, within **five working days** from the date of the decision to create an industrial park, is obliged to submit to the competent government authority a copy of the decision to develop an industrial park and the concept of the industrial park.

The decision to create an industrial park is the reason for the agreement concluding on the creation and operation of an industrial park between the initiator and the management company of an industrial park.

List of documents for inclusion of an IP in the Register of Industrial Parks

To decide on the inclusion of the industrial park in the Register of Industrial Parks, the initiator of the creation shall submit the following documents to the authorized state body:

1. The application for inclusion of the industrial park into the Register of Industrial Parks;
2. The decision of the initiator on the creation of the industrial park;
3. The concept of the industrial park;
4. An extract from the State Land Cadastre regarding the land plot and title documents for the real estate objects located thereon;
5. Name of the management company and participants (if any).

The industrial park is included in the Register of Industrial Parks **within 45 business days** from the date of receipt of the application from the initiator of the industrial park by the authorized state body.

The authorized state body, following the procedure approved by the Cabinet of Ministers of Ukraine, shall review the documents **within 21 business days** from the date of receipt of the papers from the initiator of the establishment.

Key legislative act regulating data protection in Ukraine

The key legislative act regulating data protection in Ukraine is the Law of Ukraine "On Personal Data Protection" No. 2297-VI, dated June 1, 2010 (the "Law")

The Law applies to individuals and legal entities that perform any actions or a set of actions, such as collection, registration, accumulation, storage, adaptation, modification, updating, use and dissemination (distribution, sale, transfer), depersonalization, destruction of personal data, including with the use of information (automated) systems.

The Law may not apply if the data is processed:

- ▶ by an individual solely for personal or household needs;
- ▶ exclusively for journalistic and creative purposes, provided that a balance is struck between the right to respect for privacy and the right to freedom of expression.

Data controllers must comply with the following obligations:

- ▶ Personal data must be processed openly and transparently.
- ▶ The means of processing personal data must correspond to the purpose of the processing.
- ▶ Personal data must be protected from accidental loss, destruction, or unauthorised processing and access.

The Law also sets out certain requirements for securing protection measures during the processing of data.

The law provides the subject of personal data with a wide range of rights regarding the processing of his or her personal data, including:

- ▶ to know about the sources of collection, location of his/her personal data, purpose of their processing, location or place of residence (stay) of the owner or manager of personal data or to give a corresponding order to obtain this information to the persons authorized by him/her, except in cases established by law;
- ▶ to receive information on the conditions of granting access to personal data, in particular information about third parties to whom his/her personal data is transferred;
- ▶ to have access to their personal data;
- ▶ to protect their personal data from unlawful processing and accidental loss, destruction, damage due to intentional concealment, failure to provide or untimely provision thereof, as well as to protect against provision of information that is inaccurate or discrediting to the honor, dignity and business reputation of an individual, etc.

Personal data may be transferred to foreign parties to relations related to personal data only if the relevant state ensures proper protection of personal data in cases established by law or an international agreement of Ukraine.

It is assumed that the following countries provide such level of protection:

- ▶ European Economic Area (EEA) member states;
- ▶ Countries ratifying the Convention for the Protection of Individuals with regard to Automatic Processing of Personal Data.

The Cabinet of Ministers of Ukraine determines the list of states that ensure adequate protection of personal data.

Personal data may be transferred to foreign subjects of relations related to personal data also in the case of:

- ▶ the personal data subject provides express consent to such transfer;
- ▶ the data controller and the data subject need to enter into or perform an agreement for the benefit of the data subject;
- ▶ the data transfer is needed to protect the vital interests of personal data subjects;
- ▶ the data transfer is needed to protect the public interest, establish, fulfill and enforce a legal claim;
- ▶ provision by the personal data owner of appropriate guarantees of non-interference in the personal and family life of the personal data subject.

Key points on prevention of money laundering in Ukraine

The prevention of money laundering in Ukraine is mainly regulated by financial monitoring.

Financial monitoring is a set of measures taken by financial monitoring authorities in the field of prevention and counteraction, including state financial monitoring and primary financial monitoring.

Financial monitoring in Ukraine is regulated by the Law of Ukraine "On Prevention and Counteraction to Legalization (Laundering) of the Proceeds of Crime, Terrorist Financing and Financing of the Proliferation of Weapons of Mass Destruction" dated December 6, 2019 (the "Law") and a number of regulations.

In accordance with the Law, threshold financial transactions (in particular, in the amount approx. EURO 10 000 and above) and suspicious financial transactions (if there are grounds to believe that they are the result of criminal activity or are related to or relate to terrorist financing or financing of the proliferation of weapons of mass destruction) are subject to financial monitoring.

The national financial monitoring system consists of the following elements:

1. Subjects of primary financial monitoring (banks, financial institutions and others);
2. Subjects of state financial monitoring (NBU, NSSMC, Ministry of Digital Transformation, Ministry of Finance, Ministry of Justice, State Financial Monitoring);
3. Law enforcement, intelligence and judicial authorities (SBI, BES, SSU, PGO, NABU, National Police and others).

The State Financial Monitoring Service is the coordinator of the national financial monitoring system.

The Order of the Ministry of Finance of Ukraine No. 465 dated December 28, 2022, approved the updated Risk Criteria for Legalization (Laundering) of Proceeds of Crime, Terrorist Financing and Financing of the Proliferation of Weapons of Mass Destruction.

Currently, according to the Law, a high risk of business relations (financial transaction without establishing business relations) is established, in particular, in relation to the following clients:

- ▶ customers whose place of residence (location, registration) is a state (jurisdiction) that does not implement or improperly implements the recommendations of international and intergovernmental organizations involved in combating money laundering or terrorist financing or the financing of the proliferation of weapons of mass destruction.
- ▶ clients included in the list of persons, clients who are representatives of persons included in the list of persons, clients that are directly or indirectly owned or ultimate beneficially owned by persons included in the list of persons;
- ▶ foreign financial institutions (except for financial institutions registered in the member states of the European Union, member states of the Financial Action Task Force on Money Laundering (FATF), except for states that carry out armed aggression against Ukraine in the meaning given in Article 1 of the Law of Ukraine "On Defense of Ukraine") with which correspondent relations are established;
- ▶ foreign public figures, members of their families and persons related to such politically exposed persons, as well as clients whose ultimate beneficial owners are the said persons;
- ▶ customers whose place of residence (location, registration) is a state included in the list of offshore zones by the Cabinet of Ministers of Ukraine;
- ▶ clients in respect of whom information on the ultimate beneficial owner of the legal entity is excluded from the Unified State Register of Legal Entities, Individual Entrepreneurs and Public Organizations or a note is made that the ownership structure of the legal entity is recognized by the National Bank of Ukraine as non-transparent;
- ▶ customers who are citizens of a state that carries out armed aggression against Ukraine (except for citizens of such a state who were granted the status of a combatant after April 14, 2014) and/or persons whose place of permanent residence (location, registration) is a state that carries out armed aggression against Ukraine;
- ▶ clients whose ultimate beneficial owners are citizens of a state that carries out armed aggression against Ukraine (except for citizens of such a state who were granted the status of a combatant after April 14, 2014), and/or persons whose place of permanent residence (location, registration) is a state that carries out armed aggression against Ukraine, etc.

Access to EU Finance - How it works?

Who is eligible for EU funding?

EU Funding is available for all types of companies of any size and sector.

A wide range of financing is available: loans, microfinance and venture capital. Every year the EU supports more than 200 000 businesses. The EU also supports businesses with grants and contracts.

How it works

The **decision** to provide EU financing will be **made by the local financial institutions** such as banks, venture capitalists or angel investors.

Thanks to the EU support the local financial institutions can provide additional financing to businesses.

The exact financing conditions - the amount, duration, interest rates and fees - are determined by these financial institutions.

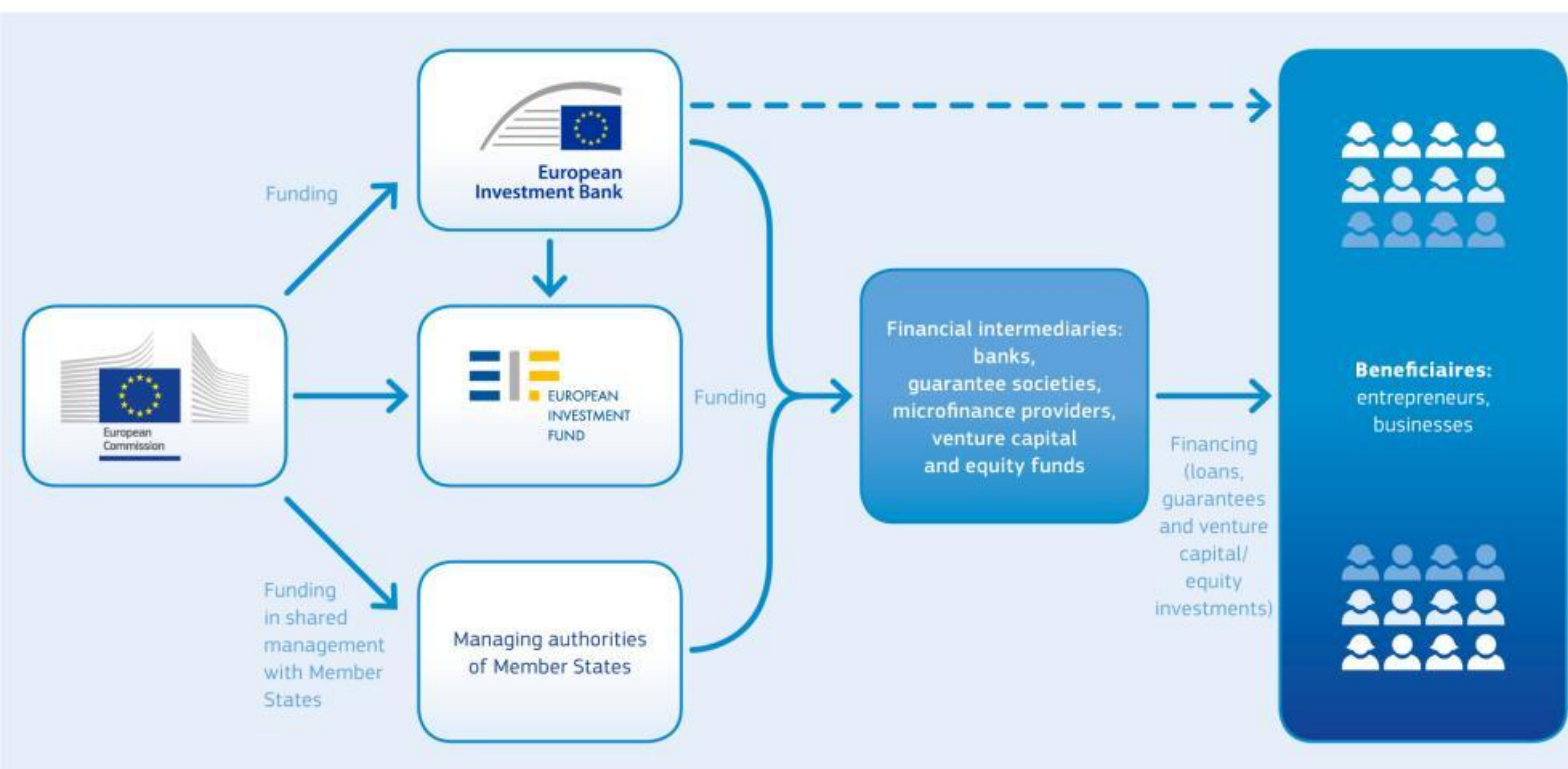

You can **contact one of over 20 banks in Ukraine** to find out more.

Your right for credit feedback

You have a right to get feedback from credit institutions on their credit decision.

This can help you understand your financial position and improve your chances to obtain financing in the future.

Use your right and refer to [Article 431 of the EU Capital Requirements Regulation](#).

Employment of Foreigners in Ukraine

Foreigners may be officially employed in Ukraine subject to the national legislation.

In accordance with the [Law of Ukraine "On Employment of the Population"](#) (the "Law"), employers are entitled to employ foreign nationals and stateless persons in Ukraine on the basis of a permit issued by an employment center.

It is permissible to employ foreigners and stateless persons in a variety of roles with one or more (two or more) employers, provided that the requisite permit has been obtained for each position.

Foreign professionals may be employed in part-time positions without a work permit if the term of the employment contract for the part-time position does not exceed the term of the work permit for the main place of employment.

A foreign employee may assume the duties of a temporarily absent employee in addition to those outlined in their permit, provided that the combined workload does not exceed 60 calendar days in a single year.

No permit is required for employment of:

- ▶ Foreigners who are permanent residents of Ukraine.
- ▶ Foreigners who have been granted refugee status in accordance with Ukrainian legislation or have obtained a permit to immigrate to Ukraine.
- ▶ Foreigners recognized as persons in need of additional protection or granted temporary protection in Ukraine.
- ▶ Representatives of foreign marine (river) fleet and airlines that serve such companies in Ukraine.
- ▶ Employees of foreign mass media accredited to work in Ukraine.
- ▶ Athletes who have acquired professional status, artists, and art workers to work in Ukraine in their specialty.
- ▶ Employees of emergency services to perform urgent work.
- ▶ Employees of foreign representative offices registered in Ukraine as established by law.
- ▶ Clergymen being foreign nationals temporarily residing in Ukraine at the invitation of religious organizations to perform canonical activities exclusively within the confines of such organizations, with the official approval of the body that registered the charter (regulations) of the relevant religious organization.
- ▶ Foreign nationals who have arrived in Ukraine to participate in the implementation of international technical assistance projects.
- ▶ Foreign nationals who have arrived in Ukraine to conduct teaching and/or research activities in professional higher education institutions at their invitation.
- ▶ Other foreigners in cases stipulated by the laws and international treaties of Ukraine, ratified by the Verkhovna Rada of Ukraine.

A document confirming the right of a foreigner or stateless person to permanent residence in Ukraine is a permanent residence permit. A document confirming the granting of refugee status is a refugee certificate.

Furthermore, the employer is required to obtain a permit for the following categories of individuals, unless otherwise provided for in international treaties of Ukraine that have been ratified by the Verkhovna Rada of Ukraine:

- ▶ Seconded foreign employees;
- ▶ Internal corporate assignees;
- ▶ Foreigners and stateless persons in respect of whom a decision has been made to process documents to resolve the issue of recognition as a refugee or a person requiring complementary protection.

The following categories of foreign nationals and stateless persons are eligible to apply for employment in Ukraine:

- ▶ Foreign highly paid professionals;
- ▶ Founders and/or participants and/or beneficiaries (controllers) of a legal entity established in Ukraine;
- ▶ Graduates of universities included in the top hundred in the world university rankings, according to the list determined by the Cabinet of Ministers of Ukraine;
- ▶ Foreign creative workers;
- ▶ Foreign IT professionals.

In order to obtain the permit, the employer is required to file with the employment center at the location of an entity or institution the **list of documents** specified in Article 42 of the [Law](#).

The permit is issued for a period of validity of:

- ▶ A foreign economic agreement (contract) between a Ukrainian and a foreign business entity, for a period of no more than three years, for seconded foreign employees.
- ▶ A foreign business entity's decision to transfer a foreigner or stateless person to work in Ukraine, along with an employment agreement (contract) concluded by a Ukrainian business entity with a foreigner or stateless person, but not for more than three years for intra-corporate assignees.
- ▶ A certificate of application for protection in Ukraine or a standardized certificate of application for statelessness, but not for more than one year, is required for individuals for whom a decision has been made to process documents to resolve the issue of recognition as a refugee or a person in need of complementary protection; individuals who appeal a decision to refuse to process documents to resolve the issue of recognition as a refugee or a person in need of complementary protection; individuals who have applied for statelessness or appeal against a decision to refuse to be recognized as a stateless person. The validity of the permit may be extended in case of prolongation of such a certificate.
- ▶ An employment agreement (contract) for a period of no more than one year may be concluded with foreigners and stateless persons who have arrived in Ukraine to pursue higher education and intend to engage in gainful employment in Ukraine during their studies and after graduation, provided that they are employed no later than 30 calendar days before the completion of their studies.
- ▶ An employment agreement (contract) or a gig contract, but not for more than two years – for all other foreign employees and gig workers.

During martial law, residents of Diia City may receive work (services) performed (provided) by gig-specialists from among foreigners and stateless persons under gig-contracts without obtaining a permit.

In the event that an employer employs foreign nationals without the requisite work permit, the State Employment Service shall impose a fine on the employer for each such individual in the amount of twenty times the minimum wage established by law (i.e., UAH 160,000 in 2024).

Upon the expiration of a work permit for a foreign national, the employer is required to return the permit to the designated employment center.

Please refer to the [Diia](#) portal for detailed information on the algorithm, required documents, terms, and cost of obtaining a work permit for foreigners and stateless persons. The cost for a period of 6-12 months is UAH 15,140 in 2024.

Compensation for employers for hiring the unemployed persons and creating new workplaces

In 2023 the Ukrainian government has adopted significant regulations in employment that provide for compensation for employers for hiring the unemployed persons and creating new workplaces:

- ▶ CMU Resolution No. 124 dated 10.02.2023, which approved the Procedure for Providing Employers with Compensation for Employment of Registered Unemployed Persons.
- ▶ Resolution of the Cabinet of Ministers of Ukraine No. 338 dated 18.04.2023 "Some Issues of Providing Compensation to Employers of the Single Contribution to the Compulsory State Social Insurance for Employment in New workplaces", which approved two procedures:
 - The Procedure for Compensation to Employers of a Part of Actual Expenses Related to Payment of the Unified Social Tax for Employment to New Jobs;
 - The Procedure for Compensation to Small Businesses for Actual Expenses in the Amount of a Single Contribution to Compulsory State Social Insurance for Employment of Registered Unemployed Persons for New Jobs .

Together with the Law of Ukraine "On Employment", these resolutions provide for such types of compensations:

1. Compensation of the single contribution

- ▶ In the amount of a single contribution (not more than double the minimum insurance contribution) for employment for at least two years of persons who:
 - have additional guarantees in facilitating employment and have been in the status of registered unemployed for more than one month;
 - have been in the status of registered unemployed for more than six months.
- ▶ Small business entities in the amount of a single contribution for the employment of registered unemployed persons for new jobs for at least two years.

The total duration of compensation is **12 months**.

2. Compensation of 50% of actual labor costs

3. Compensation of 50 percent of the actual labor costs incurred by the employer (but not exceeding the minimum wage) for the employment of persons who have been registered as unemployed for more than one month:

- ▶ persons with disabilities
- ▶ participants of military operations,
- ▶ who are no more than five years away from the age of eligibility for retirement pension.

The total duration of compensation is **6 months**.

3. Compensation of 50% of the single contribution

If employees are hired for new jobs with a salary of at least three minimum wages over the next **12 calendar months**, the employer is reimbursed for actual expenses in the amount of 50 percent of the amount of the accrued unified social contribution.

4. Compensation of 50 percent of the minimum wage

Compensation of 50 percent of the minimum wage for the employment of unemployed youth.

The total duration of compensation is no more than **6 months**.

5. Compensation for Labor Costs for Employment of Internally Displaced Persons

Also, remains in force the Resolution of the Cabinet of Ministers of Ukraine No. 331 dated March 20, 2022, which approved the Procedure for Providing Employers with Compensation for Labor Costs for Employment of Internally Displaced Persons as a Result of Hostilities during Martial Law in Ukraine.

According to this Procedure, the expenses are reimbursed in the amount of the minimum monthly salary UAH 8,000/month (as of April 2024) for each employed person for whom the employer pays a single contribution for the period of martial law and within 30 calendar days after its cancellation or termination.

The total duration of expense reimbursement cannot exceed three months, and for persons with disabilities among internally displaced persons, it cannot exceed six months from the date of employment. The employer can apply between 5 days and 6 months after the employment date. To do this, contact the employment center or use the Diiia portal.

Ukrainian E-Residency for Foreign Nationals

The advantage of e-residency is that it is easy and available online for individuals (mostly IT professionals and consultants), who want to pay taxes at a comparatively low rate enjoyed by ordinary residents of Ukraine, but without being in Ukraine.

Requirements for E-Residency

To qualify as an e-resident, a foreigner must meet the following criteria:

- ▶ Age: The individual must be at least 18 years old.
- ▶ Tax Residency: The person should not be a tax resident of Ukraine.
- ▶ Qualified Electronic Trust Services: The applicant must have obtained appropriate qualified electronic trust services.
- ▶ Registration: The individual needs to be registered in the E-Resident information system.

Application Process

A potential e-resident must:

- ▶ Fill out an application through a mobile application «Dia» or on the uResidency portal.
- ▶ Visit the Ukrainian consulate for identification (subsequently, the identification procedure will also be digitalized and available online)
- ▶ Then he/she opens a bank account remotely, and it is the bank that will be the tax agent for the resident.

If person is approved, he/she becomes an e-resident - an electronic single tax payer for group 3 without VAT and receives an electronic digital signature.

Taxation and Banking

E-residents are subject to a tax rate of 5% on their income, including VAT, up to a certain limit. The limit is calculated based on the equivalent of 1,167 minimum wages established by law as of January 1 of the tax year, which currently amounts to UAH 8,285,700 (approximately EUR 189,991 as of December 2024). Any income exceeding this limit is taxed at a rate of 15%. It is important to note that the resident's bank serves as the tax agent.

Communication and Limitations

Correspondence between the tax authorities and the e-resident is carried out exclusively by means of electronic communication in a digital format.

The following persons may not be e-residents:

- ▶ citizens of Ukraine
- ▶ foreigners who have the right to permanent residence in Ukraine or are tax residents of Ukraine
- ▶ stateless persons
- ▶ persons receiving income originating in Ukraine for goods, works, services (except for passive income);
- ▶ persons who are citizens (subjects), residents or persons whose place of permanent residence (stay, registration) is in states (jurisdictions) not included in the List of states whose citizens or residents may obtain the status of an electronic resident (e-resident).

Additional Regulations for E-Residents

E-residents are only permitted to receive passive income originating in Ukraine, such as interest, dividends, and royalties also restricted to providing services, producing, and selling goods exclusively to non-residents of Ukraine. Furthermore, e-residents are prohibited from employing Ukrainian citizens or residents.

Residency program is currently available for citizens of India, Pakistan, Thailand and Slovenia

Entry regime to Ukraine for foreign citizens

The visa requirements in Ukraine vary based on the nationality of the foreigner. Ukraine maintains a visa-free regime with specific countries, whereas citizens of other nations are required to apply for a visa prior to their trips.

You can check whether you need a visa to enter Ukraine on the [website](#) of the Ministry of Foreign Affairs of Ukraine. Individuals from visa-exempt countries are entitled to a stay in Ukraine for a maximum of 90 days within any 180-day period.

In the absence of a visa-free arrangement, individuals from other countries must possess the necessary set of documents for entry, which includes a passport, evidence of the trip's purpose, financial means, and a visa.

Employment

According to the labour law of Ukraine, the possible ways of employment are as follows:

- ▶ an employment agreement or employment contract
- ▶ a civil contract on performing certain services
- ▶ employment contract with non-fixed working hours
- ▶ gig contract for Diya City residents

Typically, the standard duration of a workweek is limited to 40 hours, usually spread across five days. However, an employer has the option to implement a six-day workweek, with the condition that employees are not allowed to exceed seven hours of work per day.

An employment agreement or employment contract

Ukrainian labor law allows various types of agreements between employees and employers. A special contract, which offers greater flexibility than a standard employment agreement, can be used with specific employees, like company directors or foreign workers. This contract can define the term, rights, obligations, financial liability, material support, work organization, and termination conditions. During the COVID-19 pandemic and under martial law, Ukraine introduced more flexible regulations for remote and home-based work, which remain in effect.

Civil law contracts

Besides employment agreements, companies can hire contractors through civil law contracts. Contractors provide specific services or complete tasks using their own or client-provided resources. Often, private entrepreneurs with simplified taxation are involved. However, this method is regulatory grey area and poses risks of potential sham employment situations.

Employment contract with non-fixed working hours

An employment agreement featuring variable working hours is a unique contract wherein no specific timeframe is predetermined for work completion. The employee's obligation to work arises only when the employer offers tasks outlined in the contract, without a guarantee of continuous work provision. However, terms of compensation are ensured to be met in accordance with the agreement.

Gig-contract

A Gig-contract refers to a unique type of civil law agreement that can be entered into between a gig-specialist, predominantly individuals in the IT field, and a company holding the Diia City resident status. Diia City represents a distinctive tax and employment framework for IT enterprises, applicable upon their registration as [Diia City](#) residents.

Work Permits for foreign employees

To legally employ a foreigner in Ukraine, the employer must obtain a work permit from the Employment Center, which remains valid for six months to three years and is indefinitely renewable upon expiration. The employer may be either a legal entity or an individual entrepreneur.

Additionally, ensuring the prompt distribution of salary and handling other financial transactions for a foreign employee, which includes covering their taxes and fees, usually requires obtaining a Ukrainian tax number issued by the tax authorities of Ukraine.

Hiring a foreigner without a valid work permit is against the law and carries legal consequences. Nevertheless, certain exceptions exist. Specifically, a work permit is not mandatory for the employment of:

- ▶ foreigners holding permanent residency status in Ukraine;
- ▶ employees of foreign representative offices duly registered in Ukraine according to the legally prescribed procedure;
- ▶ foreigners who have come to Ukraine to contribute to the execution of international technical assistance projects;
- ▶ other foreigners in cases stipulated by the laws and international treaties of Ukraine, ratified by the Verkhovna Rada of Ukraine (including Polish citizens);
- ▶ etc.

In response to the assistance extended by Poland to Ukraine and the Ukrainian people amid Russia's invasion, Ukraine has streamlined the regulations for the employment and temporary residence of Polish citizens. For instance, a work permit is no longer a requirement.

Foreigner's Guide on Business Travel to Ukraine

[“Foreigner's Guide on Business Travel to Ukraine”](#) from BDO in Ukraine provides entrepreneurs and anyone planning to visit Ukraine with the necessary information to organize the safest and most efficient travel across the country.

“Foreigner's Guide on Business Travel to Ukraine” The guide is divided into sections where you will find information on types of travel to and within Ukraine, options for finding accommodation for business travelers, health insurance against military risks, and important and useful applications and resources. In addition, the guide includes relevant and useful insights, such as border crossing rules, information on shelters and curfews, etc. All of this makes the “Foreigner's Guide on Business Travel to Ukraine” an essential resource for planning and implementing an effective business trip to Ukraine.

The guide also includes:

- ▶ Basic steps for planning a safe trip
- ▶ Methods of ensuring personal safety in different regions
- ▶ Analysis of possible risks and measures to reduce them
- ▶ Information for a safe stay
- ▶ Tips on travel insurance
- ▶ A list of important resources and useful tips.

The guide is also available in English and German.

Guide to Public Procurements in Ukraine

This [guide](#) was created to provide practical assistance to organizations that want to participate in tenders for the supply of goods, works and services for public funds or funds of donor organizations operating in Ukraine. The guide provides information on the Prozorro electronic procurement system used in Ukraine, as well as on the specifics of the legislation, procedures and documentation governing procurement processes. The guide also provides advice on how to search for procurement announcements, register, prepare and submit tender proposals, as well as appeal and defense procedures for your rights.

Guide will be useful for:

- ▶ organizations that have an interest or experience in participating in tenders for the supply of goods, works and services for public funds or funds of donor organizations operating in Ukraine
- ▶ for both beginners and experienced tenderers who want to improve their knowledge and skills in this area
- ▶ as a reference or training material for organizations that provide consulting or training services on tender participation.

The guide is also available in English and German.

Investment guide Ukraine

The Ministry of Economy of Ukraine developed the INVESTMENT GUIDE UKRAINE, which was specifically prepared for the Ukrainian Recovery Conference in Berlin in June 2024. BDO was actively involved in the process of creating this Guide.

The document presents an overview of the Government's priority sectors of the economy, the investment environment, and the key information for investors and other stakeholders about economic policy, recovery, and investment activity in Ukraine.

This guide presents 95 investment projects with a total value exceeding \$27 billion across various sectors of Ukraine's economy, including:

- ▶ Energy
- ▶ Transport and logistics
- ▶ Agrifood
- ▶ Green steel
- ▶ Pharmaceutical and medical sectors
- ▶ Critical materials
- ▶ ICT and digital technologies
- ▶ Housing, reconstruction and building materials.

Guide: Rebuilding Ukraine with the Private Sector

The Guide: Rebuilding Ukraine with the Private Sector was created by UkraineInvest, the investment promotion office of the Government of Ukraine.

The Investor Guide includes relevant information on Ukraine's investment profile, financial support, business opportunities, and analytical information on different sectors of the economy and regions of Ukraine.

The guide describes the main advantages of investing in Ukraine:

- ▶ Rebuilding related investment opportunities
- ▶ Access to regional consumer markets
- ▶ Geographical position
- ▶ Skilled and competitive labor force
- ▶ Considerable raw material base
- ▶ Digitalisation
- ▶ Ukraine as a global leader
- ▶ Investment incentives
- ▶ Investments insurance

The document presents specific investment projects that require capital investment.
